Cum nomina librorum confraternitatum ordine quo imprimenda essent conscriberem id potissimum egi ut librorum manu scriptorum speciem, quoad fieri posset, in libro imprimendo repeterem. Sed cum quot scripturae tot typorum genera adhiberi nequirent, ne pretium libri nimium esset, quattuor tantum typorum generibus usus sum: 1. litteris rectis (quae corpus a typographis appellantur) plerumque primam cuiusvis paginae manum indicare volui. 2. litteris parvis ea nomina distinxi quae inter lineas inserta sunt; 3. litteris obliquis scripta et 4. uncis inclusa nomina plerumque tempore posteriora sunt. Quibus typorum ordinibus id efficere volui ut ab eis quoque qui libros manuscriptos non vidissent, quae eadem, quae alia manu scripta essent facile posset distingui. Asterisco id nomen notavi quod primum est novi scriptoris vel novae scripturae eiusdem scriptoris. Quae in summis et in imis paginis transversa scripta sunt ad numeros primae columnae eiusdem paginae traxi. Quibus animadversis haec est regula legendi: Nomina quae in eadem columna eodem typorum genere impressa sunt, ab eodem scriptore eodem tempore collata sunt, nisi asterisco separantur.

Singula nomina secundum normam quae in Monumentis observatur scripsi, qua in re una a codicibus discessi, quos in caeteris accuratissime secutus sum. In eis partibus quae oratione continua scriptae sunt, ut in libro promissionum et in appendicibus Sangallensi et Fabariensi, eandem rationem secutus sum, quam semel tantum in libro promissionum deserui, ne lectionum apparatus nimis cresceret.

Nam formulas quidem omnes, quales in codice sunt, descripsi, sed in singulis vocibus infinitam lectionum varietatem ibi tantum ascripsi, ubi ea ad discernendos scriptores adiumenti aliquid videretur afferri. itaque ut exemplo utar in pag. cod. promissionum septima [I, 381] addere neglexi, 1. 13. 15 obędientia. 19. 21. 22. 23 oboedientia scriptum esse, 14 obedien, 17. 18 obeđ. 21 oboeđ. 24 ob̄. 25. 26 ob̄b̄., 14 stab̄tate, 15 stabilit̄. 16—18. 21—25 stab̄, 19 stabit̄. 26. 27 stab̄l. per compendia scripta esse et similia.

In notis criticis ubi legentibus aliquis dubitandi locus esse poterat littera obliqua **c.** indicare volui in codice ipso id quod in contextu legatur ex eo nomine quod adnotatione exhibeatur correctum esse. Alias, ubi correxi, quod in codice falso scriptum esse indicavi, pleniore compendio **cod.** usus sum.

Fieri potest ut hic ille aliquid ad interpretanda nomina contribuat, quod ego non vidi; ut hoc illud interpretamentum meum non satis certum esse indicetur (id quod in donatorum Sangallensium distinctionibus potissimum multo facilius fieri potest quam ego eas inveni): rationem tamen et viam aperiendorum horum librorum recte a me indicatam esse quicunque eos accuratius legerit facile concedet.

Per sex annos haud mediocri labore hanc editionem molitus sum; initio quidem vocum potissimum varietate dialectica ad hos libros ductus sum, postea historica studia praevaluerunt. Ratio investigandi diligenti cura anquirenda mihi erat, nam eis quae Karajan ad explicanda nomina libri confraternitatum S. Petri Salisburgensis attulit, parum ostenditur, quando quis honoris confraternitatis particeps fieri potuerit. Cum libros Sangallenses primo exscriberem, parvarum inde dissertationum in ephemeridibus publicandarum fructum me percepturum esse sperabam; postea cum editionis sumptibus ministerii rerum ecclesiasticarum et scholasticarum Borussici perficiendae spes exorta esset, iterum atque iterum codicibus adhibitis omnia quae collegeram in libri formam redegi eaque nunc prona favente gratia societatis fontibus rerum Germanicarum aperiendis publici iuris facta esse valde gaudeo.

Haud pauci insigni comitate optime de hac editione meruerunt. Rerum ecclesiasticarum et scholasticarum Borussorum regis summus praefectus, Dominus de Puttkamer, itineribus faciundis pecuniam mihi numerari iussit idque tanta liberalitate ac comitate fecit ut ministro non minus quam ministerio mihi gratiae habendae sint.

Sodalitas Regia Litterarum Borussica quae elaboraveram arbitrio virorum doctissimorum mihique semper summopere verendorum C. Muellenhoffii et G. Waitzii submisit quorum priorem antequam haec editio perfecta esset de vita migrasse valde doleo.

G. Waitzius ea qua uti consuerit benevolentia mihi libroque meo semper propitius fuit et ex E. Duemmleri viri egregii consilio atque auctoritate haud mediocrem fructum percepi.

Caeterorum virorum doctissimorum, F. L. Baumanni Eschingensis, A. Holderi amici Carolsruhensis, Fritzschii et Meyeri de Knonau Turicensium, Arbenzii et Wartmanni, Idtensohnii et Scherreri similiterque Eugenii de Gonzenbach nunc defuncti Sangallensium merita in hunc librum singula enumerare longum est; gratias eis ago quam maximas.

Quorum omnium nomina, nec non patris mei dilectissimi, cui quinquagenarium muneris decursum celebranti hanc editionem pia mente dedicari in hoc libro viventium inscripta manere volui, et si mihi quoque tot tantorumque laborum aliquid praemii licet exoptare, me quamvis humillimum et indignissimum huic egregiae confraternitati iungi cupio.

Dabam Altonae pridie Idus Mart. 1884.

CONFRATERNITATES SANGALLENSES.

Quae hic publici iuris facta sunt monumenta antiquitatis quinque codicibus continentur, quorum descriptio sequitur.

A. Codex membranaceus chartarii Sangallensis sign. Class. I. Cist. C 3. B 55. cum per multos annos tegumento caruerit neque integer neque sine mendis est. Nunc demum vir doctissimus W. E. de Gonzenbach cum involucro operiendum curavit. Neque vero dubium est quin iam antea ligatus fuerit, nam falce bibliopegi singulorum foliorum margines ipsarumque columnarum arcus male mutilati sunt. Eum in bibliotheca Schobingeriana fuisse et a Goldastio (Alam. rer. SS. II, p. 141) et adnotatione in superiore margine pag. 75tae codicis addita docemur, cumque eo ex hereditate Vadiana pervenisse verisimile est. Nam cum monasterium diriperetur, pars bibliothecae ad Vadianum pervenit. Ex bibl. Schobingeriana ca. annum 1636 a monasterio ipso magno pretio codex redemptus est. Folia formae quadratae maioris membranacea sunt triginta octo. Praeglutinata sunt tria folia chartacea. Paginarum numeri quamvis non recentes sint tamen non ante Goldastii tempus additi sunt. Folia in hunc ordinem digesta sunt: a. ternio continens paginas 1—12; b. quaternio (pp. 13—26), cuius quintum folium (post p. 20) resectum est; c. folium formae octonariae, cuius tergum scriptura vacat (p. 27); d. folium quadratum (p. 28. 29); e. aliud (p. 30. 31), cuius scriptura sequentibus paginis similis est; f. binio (pp. 32—39); g. duo folia singularia (pp. 40—43); h. unio (pp. 44—47); i. quaternio (48—61) cuius folium sextum (post p. 57) resectum est; k. folium membranaceum crassum (pp. 62. 63); l. ternio continens paginas 64—75. Nomina fratrum deinceps posita sunt, quatuor ordinibus in utraque pagina, sed multa in marginibus et inter lineas addita leguntur. Singulae series paginarum columnarum formis diversicoloribus distinctae sunt. Paginae 28—43, 53—73 et ipsae columnarum formas stilo incisas, alias minus distinctas quae coloribus perfectae non sunt paginae 64—67. 72. 73, exhibent. Scriptor pp. 28—43 columnarum formas primarum paginarum voluit imitari. In paginis 48—52 columnarum figurae minio pictae sunt, sed minus diligenter exaratae et simplicioribus formis quam in primis codicis paginis 1—26 (et 28—47). Ultimum folium quod diu tegumentum videtur fuisse immundum et umore putrefactum est, 75tae praecipue paginae scriptura passim parum legibilis est. Non pauca nomina in posterioribus codicis partibus ex prioribus repetita leguntur: col. 125 ex 21—23; col. 126 ex 25—29; col. 127 ex 26, 34 et 29, 31—33; col. 128 ex 34—37 et 31, 40; col. 129 ex 37. 38; col. 130 ex 38—40 et 36, 42; col. 131 ex 41—44; col. 132, 1—9 ex 45; 132, 16 sqq. ex 87. 88; 133 ex 88—90; 134 ex 90—93; 135 ex 93. 94; 136 ex 94. 95; 137 ex 95. 96; 138, 6 sqq. ex 97. 98; 139, 3 sqq. ex 99—101; 140, 6 sqq. ex 102—104; 141 ex 104—106 et 102 in.; 142 ex 7. 8. 56—68. 54, 1 sqq.; 143, 1—5 ex 6; 202. 203 ex 83—85, 8; 234—241 ex 13—18, 20; 242—247, 1 ex 1—5; 256—259 ex 111—112, 19; 268—280, 9 ex 187, 31—190; 284, 7—13 ex 45, 39 sqq.; 284, 14 — 287. 290, 1—15 ex 87—90; 290, 20—293 ex 91—94. Cum hae partes paginas codicis 30—34. 48. 56—59. 61. 64—69. comprehendant colligere licet omnia prima nomina inde a pag. 30 ex antiquioribus catalogis repetita esse. De scriptoribus v. ad singulas paginas.

Multa folia nunc deperdita esse inde sequitur, quod quaterniones non integri sunt et quod quaedam partes in apographo servatae in antiquiore parte desiderantur (cf. 204. 205. [202. 203 = 83—85, 8; cum tamen pauca nomina ex 204 et 205 in antiquiore parte reperiantur, ut 204, 6. 9. 13. 14. = 87, 10. 7. (22). 32. 2; 205, 3 = 97, 20; 204, 15 = 97, 38; 204, 16 = 97, 23; 205, 11 = 97, 36 id fortuito factum esse censeo]. 206—218. 226—233. 260—262. 280, 10—282, 29 [deperdita post p. cod. XLV; quae in fine pag. XLV. falce resecta sunt, in apographo reservata extant]), et ne apographon quidem integrum est (deest fol. ante p. XLI. cuius nomina in antiquiore scheda p. 112, 19 sqq. servata sunt, et complura folia ante p. LXIV. [cf. 181—187, 30]).

B. Septem folia membranacea, codex supplem. Sangallensis, quorum sex (3—14; col. 327—374) ternionis forma cohaerent. Octavum folium quaternionis quod cum fol. primo (1. 2. col. 319—326) cohaerebat, nunc resectum et deperditum est. In prima pagina signaturam Class. 2. Cist. 24. a 1. Arca DD 2. portat. Columnarum formae similiter atque in codicis A pp. 28 sqq. delineatae et minio pictae sunt. Codicem olim partem fuisse libri confraternitatum Sangallensis, i. e. cod. A, infra demonstrabitur.

C. Liber promissionum sancti Galli, cod. membranac. chartarii Sangallensis, class. I. cist. C 3. B 56. a Carolo Wegelino signatus, fusco corio aureis lineis marginato religatum et aureis corollis impressis ornatum est tempore Bernhardi II. abbatis (Müller de Ochsenhausen, 1594—1630) cuius insignia gentilicia recto et verso involucro impressa sunt. Folia singula huius codicis 0,26 m. alta et 0,165 m. lata sunt. Codici quinque folia chartacea vacua praeglutinata sunt, deinde duodecim folia membranacea sequuntur, quorum 1—6 cohaerentes ternionem efficiunt, 8—11 binionem. Fol. septimum singulare est; item duodecimum. Folia membranacea septem chartacea vacua eiusdem magnitudinis sequuntur. Codex integer non est cum inscriptio libri, quam cum fol. septimo et cum foliis 1—6 primum quaternionem effecisse puto, et folium unum ante paginam septimam decimam (I, 391) desit [cf. ad III, 29]. Quod nunc folium octavum est, cum undecimo olim partem alius quaternionis effecit. Singulae paginae, quamquam in codice ipso numeri 1—21 adscripti sunt (fol. 7^r = p. 14, 8^r = p. 15, et fol. 12^r = p. 24 sine numero manserunt, et fol. 8^r — 12^r numeris 14—21 designata sunt), hic rectius numeris 1—23 designantur. Fol. duodecimum crassius est quam cetera et sine dubio per multos annos tegumenti alterum dimidium erat, cum ultima pagina (24$^{(a)}$) usu valde detrita sit. Codices A, B et C nunc primum editi sunt ab Em. Arbenz (Mittheilungen zur vaterländischen Geschichte. XIX, 1—194). De ratione huius editionis et quid commune habeat cum mea, dictum est l. c. p. 191. Mea editio iam mense Octobri anni 1880 finita Academiae Regiae Borussicae arbitrio subiecta erat.

Restat ut pauca de variis casibus quibus hi tres codices iactati sint addam et de viris doctis qui eis usi sint. Antiquissima pars codicis A paginis 1—12 continetur. Ibi primum nomina Weridensium (p. 1), Turonensium (p. 4), prima series principum (p. 6) et fortasse etiam nonnulla donatorum nomina (p. 2) circa annum 810 conscripta sunt, anno circiter 815 alter quaternio (hodie pp. 13—26) additus est in quo primum episcoporum nomina (p. 16) ca. annum 815 inscripta sunt; eodem tempore aulici et comites paginarum 6 et 7 videntur addita esse, et ca. annum 819 vel 820, quo pp. 6 et 7 iam satis referta erant, nomen Iudithae imperatricis insertum est. Anno 829 in p. 11 nomina Lingonensium et in deperditis foliis nomina Wizanburgensium (cf. apographum pagg. 50. 51) addita sunt. Anno 839 tertius quaternio (hodie pp. 13—26), cuius secundum folium cum Gengenbacensibus [cf. p. 15 et apographon p. 54] et septimum folium (ante pp. 15 et 25) hodie deperdita sunt, cum nominibus Clingonensium, Fabariensium, Schinensium, Campidonensium, Hornbacensium et Elluvangensium agglutinatus est. 845 amici et curiales Ludovici Pii in p. 3 (col. 9) adscripti sunt. Anno circiter 880 [cf. I, 319] quaternio (cod. suppl. B) additus est, cuius ultimo folio nunc deperdito sine dubio postea nomina Saxonica inscripta sunt [cf. I, 265n]. Folia pp. 62. 63. 28. 29. partes sunt quaternionis deperditi qui 885 additus est, cum

Sithiensium catalogus (p. 29) et fortasse etiam Prumiensium (p. 62) eo anno conscriptus sit. Anno 885 (p. 28) ibi Rinaugienses inscripti sunt, fortasse eodem tempore quaternio Romana nomina continens, cuius duo tantum folia [p. 44—47] supersunt. Interea cum iam anno 881 defuncti reges in ultima columna paginae tertiae additi essent et iam compluribus locis monachi, laici et laicae diversorum temporum permixti legerentur desiderium exortum est, ut legibilius omnia antiquiora nomina repeterentur, et ca. annum 890 [cf. I, 179, 17] tres quaterniones additi sunt, quorum primus (48—61) uno folio (sexto), secundus (64—75) duobus foliis (primo et octavo), tertius (30—43) uno folio (secundo) nunc orbus est. Cum primus horum quaternionum (p. 30—43) antiquiores columnarum formas exhibeat, eum ceteris antiquiorem esse censeo. Fortasse iam ca. annum 890 vel 900 additus est, cum scriptura quoque a ceteris discrepet. Folium singulare (p. 27) ex scripturae nota et membranae asperitate vocumque formis antiquissimum esse colligo, et similibus foliis primos catalogos memoriae traditos fuisse puto. In paginis 44—75 et suppl. 1—14 tres transscriptorum nominum scriptores dinosco, quorum primus prima nomina pp. 44—47, alter pagg. 48—75, tertius nomina supplementi (p. 1—14) transscripsit. In codice B tamen magna est varietas, cum maxima ex parte novis additamentis inserviat. Cum omnes hae partes uno volumine coniunctae essent, in omnibus promiscue, prout spatium scribendo vacabat, usque ad saeculum quartum decimum fratres additi sunt, initio quidem saepius et copiosius, ut Traiectinorum series 227 sq. et curiales Henrici II., 367 sqq., postea neglegentius et rarius. Repetita nomina hic et ipsa impressa sunt non solum propter mutatas nominum formas et quia antiquiores partes saepius apographo supplentur, sed etiam quia ex conspectu omnium ratio transscribentis dinoscitur et certius de eis partibus apographi, quibuscum primum exemplar non iam licet comparare, opinionem formare possumus. Cod. C (codex promissionum vel confessionum sancti Galli) eodem tempore quo cod. A factus id est ca. 808 ultimis annis Werdonis vel primis Wolfleozi abb., et ad suscipienda nomina eorum fratrum, qui in ipso S. Galli monasterio monachicam vitam cum monachorum religionibus elegissent dispositus est. Sed haec prima pars, quae paginas 1—7 (375—381, 12) complectitur, ex antiquioribus notis videtur composita esse, cum nomina monachorum inde ab Audomari abb. temporibus receptorum complectatur. Usque ad Grimaldi tempora monachorum nomina ordine, sed postea inordinatius adscripta sunt usque ad saeculum duodecimum. Initio cum libro confraternitatum AB uno volumine noster codex coniunctus erat, similitudine codicis Augiensis, qui et ipse (cf. II, 571 sqq.) non solum confraternitates sed et promissionum formulas continet. Nam formulae promissionum etiam in codice A passim occurrunt (cf. I, 51, 31—33) et similes intercalationes in utroque codice inveniuntur (cf. andustrius pec. *I, 1, 24. 37, 21. 388, 4*. 394, 20). Nihil officit quod forma codicis A minor est nam cum cum religaretur falce valde mutilatum esse iam docuimus. Quin etiam Goldastii tempore codices ABC coniuncti erant, nam Goldastius (rer. Alam. ss. II, p. 141) de uno tantum codice loquitur quo ad conficienda capita IV nominum teutonicorum usus sit; nihilominus cum omnibus his tribus codicibus usum esse infra ostendemus. — Omnes tres codices non integros esse sequitur 1. ex confraternitatis formulis quas in appendice I. adieci et quarum nomina non omnia in catalogis reperiri possunt; 2. ex lacunis codicum quas supra delineavimus; 3. ex eis quae in cod. 453 (v. infra D) de monachis cum Sangallensibus confraternitate coniunctis dicta sunt; 4. ex Goldastii scriptis, de quibus infra agetur. Quid deperditum sit nunc anquirendum est et num quid alicubi deperditarum partium servatum sit.*

Usi sunt codice usque ad finem praecedentis saeculi Stumpffius, Aegidius de Tschudy, Goldastius, Mabillonius, Eccardius, M. Hohenbaumius van der Meer, et Schmidtfeldius. Joh. Rud. Stumpff (Gemeiner Löblicher Eydgenoschaft Stetten Landen und Volkern Chronicwurdiger thaatenbeschreibung. Zürich 1548) in fine libri quarti 27 nomina hominum et 28 feminarum enumerat „auß den altisten Jarzeytbüchern: vnd dem eynschreyben der Seel-

geräthen gezogen vnd in gefchrifft behalten“, *quae ex nostro codice sumpta esse puto, praesertim feminarum nomina ex p. 36. Sed cum pauca et neglegentius scripta sint nihil certi ex eis licet colligere. Aegidius Tschudy in operibus suis nec non in codicibus sua manu scriptis in chartario et bibliotheca Sangallensi servatis saepius nostro codice utitur, sed apographon eius non possidemus. Maioris momenti Goldastii opera sunt cum is partibus codicis usus sit quae nunc deperditae sunt et cum eius ipsius neglegentia et incuria haud pauca folia codicis evanuisse verisimile sit. Frustra Bremensem Goldastii heriditatem perscrutatus sum et Romae et Holmii si quid supersit inquisivi. Ita non nisi ex impressis eius libris quos reliquit accuratiora eruere possumus. In Scriptt. rer. Alam. II, 184—187 conspectum capitum libri confraternitatum dat, quae nunc omnia adhuc servata sunt exceptis duobus: no. 34 confraternitatibus Saxonicis [cf. adnot. ad I, 265] et no. 35:* In nomine Dei factus est noster frater Hugo Rex, et Hluthere et Yta et Fridericus etc. *quae versus finem codicis quali eo Goldastius usus est videntur extitisse cum post Adalstenum eiusque episcopos (n. 33 = I, 332) enumerata sint. Nomina capitum 34. et 35. in Goldastii nominum indice locupletiore (de quo infra) reperiuntur [cf. I, app.]. Goldastius primum principalia monasteria et nonnullos ordines benefactorum maioris momenti (1—28) enumerat, deinde nonnulla minus gravia (29. Wipruhc [I, 69] 30. Friburch [I, 80] 31. Rovtwil [I, 80]), principes (32. Pippinum cum suis [I, 22], 33. Adalstenum [I, 332], 34. Heinricum [cf. I, 265 n.] et 35. Hugonem) et nonnulla minora (36. 37. Traiectenses [I, 224 sq.], 38. Strazburgenses [I, 100], 39. Marlenses [I, 81], 40. Mulchusanos [I, 82]). Numeri 1—28 ita dispositi sunt ut Goldastium codicis quaternionibus hoc ordine usum esse appareat: I. p. 1—12 (1. Weridenses [I, 1], 2. Obitaneos [I, 5], 3. Turonenses [I, 13], 4. 5. 6. Lingonenses, Melundenses, Besuenses [I, 46], 7. Heogauenses [I, 50]). II. p. 13—26 (8. Clingonenses [I, 59], 9. Ganginpacenses, quorum primum folium iam tunc deerat [I, 63], 10. Tobrenses [I, 67], 11. Fabarienses [I, 71], 12. Episcopos [I, 75], 13. Scinenses [I, 79], 14. Campidonenses [I, 83], 15. Hornbacenses [I, 103], 16. 17. S. Stephani et Skenninis [I, 107], 18. Elwangenses [I, 111]). III. Cod. suppl. (19. Basileenses [I, 355]). IV. p. 48—61 (20. Wizanburgenses [I, 210], 21. Kenginbacenses [I, 226], 22. Weridenses [I, 242]). V. folium pp. 62. 63 (23. Prumienses [I, 260]). VI folium pp. 28. 29 (24. Rinaugienses [I, 116]. 25. Sithienses [I, 121]; cf. quod supra de ordine quem primitus haec duo folia in codice occupaverint adnotari). VII. pp. 64—75 (26. Gaczenses [I, 298]). VIII. pp. 30—31 [43]. (27. laicas [I, 125]). IX. p. 27 (Agustgangenses [I, 115]). Cum haec omnia cum eis quae supra de aetate singulorum foliorum exposui bene congruant, dubitari nequit quin Goldastius codicem meliore ordine dispositum ante oculos habuerit. Cur duo quaterniones (44—47 et 48—61) hic non commemorati sint eo explicatur quod haec folia ex antiquioribus adhuc reservatis transscripta, aliorum coenobiorum nomina non continent; nam ea Goldastio non ignota fuisse inde elucet quod nomina ex eis decerpta in Goldastii catalogo (de quo statim agetur) inveniuntur. Goldastius enim (rer. Alam. Scriptt. II, 122—153) quatuor capitibus catalogum* „ex vetustissimo codice monasterii S. Galli ordine descriptum“ *dat, cuius nomina ex omnibus tribus codicibus A, B et C (non tantum ex A, ut Scherrerus voluit, Catal. Sang. p. 342) collegit. I. De nominibus propriis masculinis in Alamannia Theutonica (2690 nomina); II. De nominibus propriis masculinis in Alamannia Curiensi et Burgundionensi (1116 nomina romana); III. De nominibus propriis femininis in Alamannia Thertonica (1698 nomina); IV. De nominibus propriis femininis in Alamannia Curiensi et Burgundionensi (98 nomina). Haec nomina tam accurate a Goldastio ex ipso codice transscripta sunt ut, licet nonnumquam latinam terminationem eis adiecerit vel omiserit, vel berht pro berth et vice versa scripserit, tamen eius scriptione ubique confidere possimus. Codice C eum usum esse inde elucet quod ca. 177 illorum nominum in eo solo codice reperiuntur. Nomina quae nunc in his tribus codicibus reperiri non possint ex eis partibus sumptas esse oportet quae nunc deperditae*

sunt (cf. infra I, app.). Quae in Saxonicis vel Burgundiae nominibus [cf. I, 265, not.] occurrunt in conspectu infra dato omisi. Quaestio potest moveri an Goldastius etiam ex aliis codicibus nomina desumpserit; exempli gratia ca. 35 nomina Goldastii in uno codice Fabariensi reperiuntur. Sed hoc fortuito factum esse eaque nomina in partibus nunc deperditis codicis Sangallensis exstitisse iudico, cum et pauca sint, et unius Augiensis quoque propria nomina nonnulla, quo Goldastius certo non usus est, in illis catalogis reperiantur. In primo Goldastii capite omnium codicis columnarum vestigia reperiuntur exceptis eis quae Romana vel feminarum nomina complectantur et eis quae sine momento sunt (13—18. 46. 63. 65. 70. 71. 82. 86. 92. 107. 109. 110. 129—140. 148. 156. 160. 176. 182—195. 197—201. 208. 219. 220. 234—240. 248. 250. 260. 264—267. 268—283. 298. 307. 313. 318). In secundo capite Romana nomina 13—18. 46—49. 53. 63—65. 67. 68. 71. 107. 181—201. 234—240. 260—262. 268—282. et nonnulla ex 34. 36. 37. 39. 43—45. 53. 77. 115. 116. 119. 121. 122. 150. 210—213. 218. 224—228. 248. 264. 296. 316. conquisita, quae in codice ipso linea subterducta designavit, ordine litterarum disposita conscripsit. Tertium caput ex 7—12. 19. 21. 22. 25—30. 34—40. 42—45. 50. 51. 53. 54. 56. 58. 60—62. 66. 68. 69. 72—74. 77. 78. 80—83. 85—110. 113—115. 118—164. 166—171. 173—180. 221—232. 247—249. 252. 253. 262. 263. 266. 276. 283. 284. 289. 291. 294. 295. 297. 299—312. 314—316 sumpsit. Quartum ex 18. 36. 37. 45. 93. 97. 109. 127. 132. 135. 137. 138. 143—148. 150. 151. 152. 168. 173. 176. 177. 231. 248. 264. 265. 297—299. 316 compilavit ita, ut haec quoque nomina in ipso codice linea conspicua redderet. Has lineas cum a Goldastio additas esse nunc ostenderimus in editione ipsa prorsus negligemus. Cum sciamus quot nomina Goldastii in nostro libro non occurrant facile est computare quot paginas ante oculos habuerit quae nunc deperditae sunt.

Praeter Goldastium Mabillonius in annalibus saepius nostro codice usus est, sed hic abbatum tantum et episcoporum, rarius notiorum monachorum rationem habuit. Eccardus quoque in commentariis de rebus Franciae orientalis, praecipue in volumine IIdo, nostri codicis mentionem facit sed ex brevibus eius notis parum emolumenti crescit ad textum emendandum. Maioris momenti est quod P. Mauricius Hohenbaum van der Meer monachus Rinaugiensis codice usus est. Is non tantum Rinaugiensem catalogum accuratius tractavit (cf. ad. I, 116 sqq.), sed etiam descriptionem codicis dedit in cod. ms. Sang. chartarii Class. I. Cist. C 3. B 55. inde a p. 543. Haec eius verba non sine pondere sunt: p. 545. „Folio tertio et sexto prostat tota genealogia Caroli Magni a Pipino usque ad Carolum Crassum filium Ludovici Germanici". — „Folio secundo occurrunt Wolvini et Wolfhart, quos Io. Georg Eckart Franc. Orient. Tom. II. non dubitat esse fundatores Rhenaugiae. Episcopi, Abbates et Monachi plerumque una serie sub distinctis titulis continentur. Sic folio 28 monachi Rhenaugienses a saeculo IX usque XII manu semper coaeva enumerantur; quod folium aeri incisum sistimus praeclarum antiquitatis monumentum." *p. 546 postquam dixit multa folia iam deperdita esse, addit:* „Sic licet instrumenta confoederationis supersint de anno 800 cum Augiensi monasterio et de anno 885 cum Murbacensi et Rhenaugiensi catalogus tamen monachorum in libro ipso Rhenaugiensium duntaxat vetustatis injurias evasit, Augiensium et Murbacensium deperdito." — „Constat autem ex toto hujus libri contextu non solum viventes ei inscriptos fuisse sed etiam defunctos qui ad illius monasterii sillabum quod describebatur pertinebant. Sic praesertim foliis 10. 22. 23. 24 et 26 quod fratres de Elehenwangia recenset, expresse declaratur praecedere vivos et defunctos subsequi." — „Quousque vero se extendant vivorum nomina et subsequantur defuncti definiri ad unum non potest." *Unde elucet nonnullas paginas quibus Goldastius adhuc uti potuit Hohenbaumii tempore iam deperdita fuisse. Multo maiorem operam codici nostro navavit P. Hug. Schmidfeld, mon. Sanblasianus qui eum ab initio usque ad finem non male transscripsit. Eius apographon una cum apographo codicis Augiensis nunc Carolsruhae asser-*

vatur (M. S. B C) et cum Schmidfeld codicem multis locis adhuc integrum viderit, quibus nunc nomina putredine vel carie correpta sint, haud parvum ex eo emolumentum sumpsimus et quid legerit suo loco adnotavimus. Praeterea 67 magnis paginis de libro Augiensi eisque nominibus disputat, sed hae disquisitiones quamvis diligenter conscriptae sint, hodie nullius pretii sunt. Denique codicem laudavit deque libro brevi disseruit Zapf in „monumenta anecdota histor. Germaniae illustrantia" p. 543—551 cum de abbatibus monachisque Rhenaugiensibus egit libro Fraternitatum Sangallensium inscriptis. De Brüllisaueri catalogis e nostro codice sumptis cf. p. 188. editionis Sangallensis.

D. Cod. Sangall. 915 (qui a Scherrero catal. p. 336 sqq. et a Wartmanno, Mittheilungen zur vaterl. Gesch. XI. St. Gallen 1869 p. 1 sqq. descriptus est) interspersis aliis textis in paginis 1—2. 5—26 confraternitates continet, quae post Goldastum plenius a E. Dümmlero et H. Wartmanno (St. Galler Mitth. XI, 1—24) editae sunt et hic (I, app.) ex ipso codice repetuntur. Praeterea duae rotulorum formulae et promissionis formula ex eodem codice sumpta infra dabuntur.

E. Cod. Sangall. 453 (cf. Scherreri catal. p. 148 et Wartmannum l. c. p. 3) easdem confraternitates ex praecedente codice inde a verbis aurea nichilominus gemmata *transscriptas (usque ad p. 13 col. alin. 24), sed duabus auctas p.* 15^{a}*—*16^{b} *l. 12) continet quas primum Goldastius l. c. II, 180—184 publici iuris fecit. Praeterea in paginae quartae decimae columna altera conspectum monasteriorum cum Sangallensi confoederatorum exhibet quem et ipsum Goldastius (II, 179) primum edidit. Apographon confraternitatum huius codicis manu Stipplinii in chartario (D V, 32) asservatur.*

Alium adhuc codicem Turicensem confraternitates continentem extitisse scimus, e quo P. Trudb. Neugart, cod. dipl. Alem. et Burg. transjur. Typis Sanblas. 1791 eas edidit. Is p. 258 no. 316 confraternitatem cum Augiensibus, Bobiensibus, Desertinensibus, Scinensibus et Campidonensibus, p. 458 no. 563 cum Rinaugiensibus, p. 459 no. 564 cum Murbacensibus, p. 459 no. 565 cum Ratpoldo epo., p. 549 no. 667 cum Adalberone et Meginberto, p. 581 no. 715 cum Purchardo duce, p. 588 no. 725 alteram Augiensem, p. 626 no. 776 cum Eginolfo epo. conclusam publicavit. In cassum in utraque bibliotheca Turicensi hunc codicem diligentissime quaesivi; ne in Schinzii quidem catalogo ullum eius vestigium inveni. Deperditus vel in bibliothecarum adytis videtur occultus esse.

I p. 65 n. 69) commemoratur, cui a Ratperto traditum erat et qui id ecclesiae S. Mariae post mortem suam esse voluit (de historia monasterii cf. Rettberg II, 70. 128, Gelpke II, 181—183, von Mülinen I, 56). Ex hac monachorum tabula concludi licet Weride mon. olim fuisse Lusonensis dioec., nam 1, 2 Huadalricus presul unus Lusonensis eps. huius nominis (ante ann. 814, quo Fredarius electus est), qui iam concilio Francofurt. 794 interfuit (Gelpke p. 183—186 v. Cum e uocalis ex a mutata fere semper (exceptis duabus uocibus), tamen 6 uo praeter 17 ua occurrant hanc paginam ca. annum 810 conscriptam esse perspicuum est. Haec duo nomina anno 845 scripta esse credo, quo Ebo ex Italia redux, a Ludor. Omnia nomina huius paginae ab eodem scriptore, a quo etiam prima pagina conscripta est. *13, 33* l *in ras. alius* l. *13, 1 inscr. rubr.* *16, 37 c.* Gisbehardus. *Col. 13, 1—18, 20 = Col. 234—241.*

13, 3 nomina monachorum S. Martini monasterii Turonensis in Gallia siti, quod Alcuino rectore studio litterarum floruit et unde toti regno optimi episcopi et scholarum magistri venerunt. Alcuini successor 13, 2 Fridugisus 804—832 (Simson II, 238), qui SS. Othmari et Bertini quoque monasterium regebat, frenis monasticae vitae relaxatis, ex monachis canonicos seculares 818 fecit, unde colligi licet hanc tabellam qua fratres i. monachi nominantur (cf. 1, 1 „fratres canonici“*), ante hunc annum conscriptam esse. id quod optime cum ceteris temporis indiciis huius quaternionis congruit. Quin etiam non paullo ante hunc annum videtur conscripta esse, cum verisimilius videatur Fridegisum mox post mortem Alcuini quam paulo ante monasterii immutationem, quam moliebatur, foedus confraternitatis cum Sangallensibus iniisse. Chartae celeberrimi monasterii nunc combustae sunt; capita eorum collecta sunt ab E. Mabille (la pancarte noire de St. Martin de Tours. Tours 1866). 14, 5 Theotonem Fridegisi successorem esse conicio, qui 834 fortiter pugnans contra Lantbertum et Mahtfredum diem obiit (Rudolfi Ann. Fuld. SS. I, 360 Herim. Aug. Chron. SS. V, 703. Ann. Bertinian. SS. I, 428). Neque magis certum est an 15, 6. 16 eps. Halberstadensis (840—853) sit, quem iuniorem Alcuini discipulum fuisse constat. Cum viri et defuncti in hac tabula non separentur, ei abbates, qui Fridegisum praecedebant, non nuncupati sunt.*

Antiquissima huius paginae scriptura eadem est atque in pp. 6. 7; caetera non sunt multo recentiora. Nomina col. 35 et ipsa primo scriptori attribui possunt si ea paulo post scripta esse velis, duabus vel tribus vicibus. 31, 1 *haec tria nomina*

Quae in hac pagina continentur nomina comitum sunt et antiquiorum donatorum S. Galli, id quod nominibus talibus ac 32, 15. 16. et nominum concursibus talibus ac 33, 7. 8. 9. 34, 4. 5; 7. 8; 8. 9*. 35. 21. 22. 31, 18. 22 evidenter*

in extremo fronte paginae, tertia laesa. 32, 2 c. adalricus 34, 8* et 11^b rubr. 33, 23* in ras.; transscripta sunt 31, 11 cō 33, 6* d, 33, 11* ib, 34, 11, alterum u, 35, 32 a. Oblitterata sunt 31, 30—35. 34, 27. 35, 32. In 32, 12* r initiale u litterae similitudinem ostendit. 33, 11* c. unigrrt. 33, 7^{*b} c. regiho u superscr. 32, 21* c. demonstratur. Antiquissima nomina columnarum 32. 33 comites significant, quae postea in eis addita sunt et omnia nomina coll. 34. 35 donatorum sunt. Antiquissima nomina inter 830—840 videntur scripta esse, sed cum etiam octavi saeculi nomina occurrant, has tabellas ex antiquioribus conscriptas esse apparet. Non omnes qui in chartis nuncupantur donatores hic recensentur, cum non omnes fortasse id fieri voluerint, sicut non in omnibus chartis „pro remedio animae meae" additum est. Temporis ordo in his coll. non semper videtur observatus esse partim quia antiquiores tabulae hic in unum coactae sunt, partim quia tempore quo confraternitates iniri coeptae sunt, mortui demum fratres in librum vitae videntur recepti esse, eorumque affines non inscribebantur nisi et ipsi largitione sua monasterio profuerunt. Prima cuiusque col. nomina antiquissima sunt; sed continuationes columnarum promiscue scriptae sunt, ita, ut exemplum proferam col. 33 iam scribi coepta erat, cum col. 32 nondum ad calcem perducta esset. 1. Comites: 32, 1 fil. Hnabonis, com. Argungaug. et Linzgaug., in chartis 778—813, don. 770 (W. I, 57). 32, 2 com. Turgaug. 788 (W. I, 116). 32, 3 com. Nagoltgaug. et Bertholdisbarae, fil. XIII, 380) disciplinae monasticae restitutor, donationes tradit mon. fontis Besue (ann. Bes. SS. II, 248), cf. chartam don. Alberici in Johannis mon. chronicis Bes. (d'Achery II, 406) a. d. XIII Kal. Dec. 830, cui sequentes testes subscripserunt: Agobardus Lugdun. eccl. archieps., Angericus eps., Albericus eps. [46, 3], Faora Cabilonensis, Modoinus Augustodun. Wintarbus ab. Calticens. Colligi licet nostram quoque tabellam ca. a. 830 conscriptam esse, cum nomina singulorumque dignitates cum illa charta congruant. 46, 4 ab. S. Benigni Dirion., coreps. factus ab Alberico (d'Achery II, 375. Mabillon II, 482), Herlegaudo successit 820 (cf. ser. abb. S. Ben. SS. XIII, 280); ca. 844 obiit; sedem occupat Ingilramnus (le Cointe VII. VIII), vel Wido (SS. XIII, 380); in chron. vener. abb. Ben. Dirion. mon. benef. et fundat. (d'Achery I, 257 sqq.) commutationes inter Herlebertum et Seraphinum abb. [49, 4] factae commemorantur. Albericus in S. Benigni mon. 826 disciplinam restituit (Simson I, 247). Caetera nomina coll. 46. 47. canonicorum Lingonensium sunt (cf II, 549, 5). 46, 5 abb. S. Columbae ca. 836 (le Cointe VIII, no. 34) coreps. iam ca. 830. 48, 3 mon. S. Petri Melonidis in Burgundia a Chlodoreo constr. (hodie Molôme) arcte coniunctum est in historia cum monasteriis s. Benigni, s. Petri fontis Besue et cum ep. Lingon. Mabillon (I, 45) Epelinum [48, 4] ca. 817 vult fuisse, Ansegisus Fonten. eum heredem quorundam bonorum instituit. Quam cod. Aug. 540. 541 exhibet tabulam monachorum eiusdem coenobii post 820 conscriptam esse eo docemur quod Betto eps. inter defunctos nominatur. Aliis de causis hanc Augiensem tabulam ca. 830 ponendam esse apparebit. At cum nostra columna nonnullos monachos inter viros afferat, qui in Augiensi iam mortui sint [46, 6 = 541, 30; 47, 12 = 541, 38.] et cum in fine Augiensis tabulae nova nomina addita sint, nostram tabulam paulo ante, i. e. ca. in. annum 830 conscriptam esse licebit concludere. 49, 3 Fontis Besue mon. prope Dirion. Burgund., saec. VII^{mo} ab Amalgario duce Burg. sub Clotario II. construct., a fonte Besuo nomen accepit (Mabillon IV, 174, le Cointe II, no. 56), 751 feminae cuidam traditum (chron. Bes. d'Achéry spic. II, 400 sqq.), 817 ab Alberico reformatum, qui 830 Seraphinum abb. [49, 4] constituit (Bouquet VI, 565, n. 157; secundum alios iam 826, cf. Mabillon II, 413. 471), qui 838 diem ob. (d'Achery 407). De tabula monachorum fontis Besue in cod. Aug. 542. 543 reserrata idem valet quod. le Melundensibus: paulo post nostram conscripta est. 49, 5 Aaronem Mabill. (II, 414) illum monachum fuisse suspicatur, qui 818 cum Adalfrido Fuldam missus est, ut huius coenobii monachis praesidio essent contra Ratgarium. Commutationes factae sunt inter Herlebertum et Seraphinum (le Cointe VII, no. 58 d'Achery II, 410); et inter hunc et Teutonem S. Leodegarii 830 (d'Achery I, 513, Mabillon II, 471, Bouquet VIII, no. 73. 74 ad ann. 830). S. Benigni, S. Petri Melondis, S. Petri Fontis Besue coenobia in una charta anni 814 (Bouquet VI, 461 no. 9) inter possessiones Bettonis epi. Lingon. enumerantur, unde colligi licet ea arctissime coniuncta fuisse.

Horum presbyterorum in chartis vestigia inveni pauca et non tam certa aut dilucida ut quicquam ex eis concludere liceat. Hoc unum certum est 57, 19 sqq. cognatos domus regiae esse. 57, 19 marchio Foroiul. Unroci fil., fr. Berengarii (Simson I, 153 sq.); Eburhardus Maio mense a. 856 Lotharii legatus Theodonis villam venit (Dümmler I, 117) et 858 Ulmam se contulit. In utroque hoc itinere ut S. Gallum visitaverit fieri potest. Diem ob. 864 aut 865 (Dümmler II, 15), quatuor ei erant filii, secundum verba testamenti (Miraeus, opp. dipl. et. hist. ed. II. cur. Foppens I, 19—22): Unrocus, Berengarius, Adalharius, Ruodolfus; et tres filiae: Engeltruda, Juditha, Heilwigis. Filiorum maximi natu 57, 20 mentio facta est, sed cum hic sine titulo sit colligere liceat Eburhardum nondum mortuum fuisse tempore huius scripturae. Gysala, Eburhardi uxor (Dümmler I, 43, not. 8, Simson II, 154), Ludovici Pii filia, nata ca. 821 (Simson I, 198) post filium non posita esset. An de unica illa Unroci filia cogitandum sit, quae ex monasterio, quo deducta est, ab Liutwardo Vercellensi in matrimonium cognati cujusdam rapta est et cuius nomen non notum est, valde dubito (cf. Wiener Jahrbb. f. vaterl. Gesch. I, 172 sqq.). Potius Unroci uxor est, de qua Dümmler egit. Sed cum Unrocus et ipse iam ca. 873 diem obierit, succedente Berengario fratre haec nomina ante 865 scripta esse videntur. 57, 21 Adalpertus com. an filius Berengarii fuerit, dubito; potius de com. Tusciae (847— ca. 880) cogitaverim. Caetera huius col. nomina nobilium fuisse suspicor, cum eadem manu atque Eberhardi suorumque nomina addita sint. Fortasse 57, 23 com. Turgaug. et Zurichgaug. de quo ad. p. cod. VIII, no. 19 dictum est. 57, 27 comes qui Lotharium sequebatur (Dümmler I, 447. 462. 478. 568. 727). 57, 28 com. Nibulgaug. [cf. 38, 5].

59, 1 Monast. Clingonis hodie Klingenmünster in pago Spirensi; cum incendio consumptum esset, a Ludovico Germanico privilegiorum confirmationem impetrarit a. d. VIII. Id. Jun. 848 rogatu Hrabani (Böhmer n. 755, monast. palat. ed. Alexander II, 20, Mone Zeitsch. f. d. Gesch. d. Oberrheins XI, 6, Hrabani poem. p. 58. 59). Monast. cum archiepiscopatu Moguntino arctius videtur coniunctum fuisse, ita ut archiepiscopus Mogunt. eodem tempore abb. Clingonis, et praepositus in mon. vicarius eius esset. Antea similis coniunctio cum Spirensi episcopatu extitit, id quod docemur tabula Augiensi II, 205, ubi Fleido eps. Spirensis (782—814) abbas monasterii est. 59, 2 Otgerus (successor Haistulfi † a. d. V. Cal. Febr. 826; Simson I, 246, ser. ep. et archiep. Mog. SS. XIII, 315, Böhmer III, 139) † a. d. XI Cal. Mai 847 (ll. cc.), praedecessor Hrabani Mauri. In prima continuatione tabulae Augiensis II, 206, nomina monachorum coll. 59, 4—35 repetuntur; 59, 19 et 20 autem postea (206, 15) adduntur, et alia manu, ut supputo, quia paulo post monachi facti sunt; quod si conceditur, nostram tabulam paulo recentiorem quam alteram Augiensem esse sequeretur. Cum Otgarius a. 840 Wizanburgensi quoque mon. potitus sit, eiusque auctoritas post Ludovici mortem creverit, circa idem tempus (839?) Clingonis monasterium videtur suscepisse; id quod cum caeteris huius partis paginis bene congruit. 60, 15. 16 hodie Oberschäffolsheim (Kr. Hagenau). 62, 10. 27 hodie Dinglingen (A. Lahr), quod 1152 Dundeligen vocabatur, cf. Dümgé, Reg. Badensia, 47—62 (Baumann). 62, 19. 31 hodie Friesenheim (Kr. Offenburg); „ecclesia in Frisenheim monasterio Shutterano" *Conrado epo. Argoratensi dioecesi adiungitur (Frisenhaim Alsaticum non potest esse, propter 62 10. 27). 62, 25. 29 hodie Kippenheim (Kr. Freiburg, B. A. Ettenheim); cf. 73, 22.*

79, 5—23 eadem scriptura est atque secunda in pag. V, fortassis etiam 24—28. 81, 1—8. Scriptor qui 80, 1—18 composuit huc usque non occurrit, neque magis is qui 81, 9—24. 82, 3—14 conscripsit. 79, 29—35. 80, 19—28. 81. 25—27. 82, 15—44 eandem scripturam exhibent atque 60, 15 sqq. 81, 14 *c.* teto (ie *sup.*). 81, 20 *c.* helcel. 80, 13 *c.* chunzu.

79, 4 Scina mon. infra Augiam divitem prope Oeningen situm mox cum mon. Augiensi coniunctum in praeposituram mutatum est (Heunisch, das Grossh. Baden p. 664). Sic Constantiensis episcopatus pars factum est. Neugart (ep. I, 123) id ab Attone Bertholdisbarae et Hegaug. com. constructum esse suspicatur, cuius filius Lambertus abb. designatus a Nicolao papa solutionem voti impetravit (Cod. dipl. Alem. no. 412, Latt. concil. T. VIII, col. 558). Ab Attone duo monasteria scimus constructa esse. Horum alterum Schina fuisse nequit, cum carta confraternitatis (v. app. no. 13) cum Sangallensibus iam a. 846 conscripta sit atque in ea Ambricho et Hetti abbates nominati sint, non autem Atto aut Lambertus. 79, 1—19 sine dubio viri huius monasterii monachi sunt, 81, 1—8 defuncti. Hetti [79, 8] postea additus est ab alio scriptore, cum is, ut videtur, abbas factus esset. (Similia in tabula Rinaugiensi.) Nostrae cum serie Schinensi codicis Aug. II, 335 sqq. non multa videntur communia esse. Adalrammum abbatem sequuntur alii inter quos intermixtis alienis nomina 79, 7. 8. 10. 12. 14. 18. 20—24. 28. 81, 3. 4. 8. reperimus. Quae deinde sequuntur 335, 18. 19 Hunfridus eps. Egil eps. et ab. non docent praecedentem paginam Prumiensium monachorum esse, ut Schmidtfeld vult; at hoc inde concludi licet Augiensem tabulam ante a. 856 conscriptam esse, quo Hunfridus eps. factus est. An Kerhelm qui 334, 1 insertus est et ipse abb. Schinensis fuerit pro certo affirmari nequit. Cum praeterea in cod. Aug. 333, 13 adnotatum sit Walafredum abb. Augiensem praesentem fuisse, qui 842—849 praefuit, accuratius de tempore tab. Augiensis instructi sumus, eamque inter annos 842—846 ponemus. Sangallensis tabula ca. 829—839 conscripta est propter Campidonenses sequentis paginae (quin charta ipsa confraternitatis a. 845 scripta sit nihil officit: cf. notam ad Campidon.), et quia Adalram [II, 334, 2 = I, 79, 2] nondum abbas est, et quia Hetti in Augiensi [II, 338, 2] iam defunctus est. Mirum videtur quod nulli qui in cod. Sang. viri dicuntur, inter defunctos Aug. reperiuntur, at vero nonnulli qui in cod. Sangallensi inter defunctos sunt, in Aug. adhuc vivi apparent: sed hoc facilius repetitis nominibus explicatur quam verbis explicari posset, quod de Adalramno et de Hettino ab. observavimus. Qua de causa haec fuit series abbatum Scinensium: Ambricho (post 829). Hetti (post 840) Adalrammus (ca. 845) [et Kerhelmus?]. — 80, 1 Brisigaugiae. — 80, 23 hodie Weigheim (O. A. Tuttlingen; cf. Wartmann I, 41. 139. II. 166). — 81, 9 hodie Marlen (B. A. Offenburg). — 82, 3 [cf. 86, 6. 16] in Alsatia sit. 82, 9. 10. in Alsat. super.? 82, 15 hodie Blodelsheim (Bladoltesheim) prope Ensisheim Alsat. 82, 31 hodie Steinburg Alsat. infer. (Kr. Zabern). 82, 36 hodie Wolfisheim prope Strassburg. 82, 30 hodie Horburg prope Colmar? (olim Harburg); de 79, 29 cf. ad 60, 15.

85, 9—32. 86, 6—28 ab eodem scriptore scripta ac 60, 15 etc. 85, 16 u *superscr. Cf. 83—85, 8 cum Coll. 202. 203. 86, 17 e.* Mafrt.

83, 1 Hodie Kempten ad Illaram fl., constr. 752 (cf. Rettberg II, 131. Mabillon II, 159. 213. 568, Casp. Bruschius p. 89. Goldast. I, 300). Tatto ab. fratri Tasoni successisse dicitur (cf. Mabillon II, 75. 102. 176. 226). 829—839 (cf. Simson II, 36; Dümmler I, 55. 125 cum iam 838 vult mortuum esse). Chartae eius ex annis 831 (Monn. boica Coll. nor. I, p. 19, no. 12), 834 (l. c. p. 26, no. 17. Neugart c. dipl. I, 217), 839 (l. c. p. 237, no. 292 et p. 239, no. 299) extant. Si mireris, quod charta ipsa confraternitatis Sangallensium et Campidonensium anno 865 demum conscripta est (cf. infra app. 13. Dümmler et Wartmann. Mitth. z. vaterl. Gesch. XI, 27. Goldast. II, 183. Neugart, Cod. dipl. p. 258, no. 316) Caromanno abbate [cf. 76, 21], animadvertas hanc notam Bobbiensium, Scinensium et Desertinensium chartae appendicis loco adhaerere, unde concludere licet eam quasi notam tantum renovatae fraternitatis esse. Nam Karomannus idem est qui hic [84, 9] inter monachos nominatur. Praeterea verisimile est instrumenta ipsa quibus foedus confraternitatis sanciretur haud raro multo post factam confraternitatem conscripta esse, v. g. cum abbas ipse forte ad S. Galli monasterium veniret. Cf. repetitionem nostri commentarii in p. cod. sang. XLVIII, ubi nova nomina addita sunt. Commentarii cod. Aug. 158—165 primae columnae nullos fere (exceptis paucis) nostrorum duorum commentariorum monachos continent, sed tribus in primis columnis alterius paginae (162—164) nomina primi et secundi commentarii Sangallensis reperiuntur, idque ita ut primi commentarii nomina praecedant. In cod Aug. tres partes distinguendae sunt: prima columnas 158—161 complectens antiquissima est neque vero multo antiquior Sangallensi prima, cum eius nonulla nomina ibi occurrant. Mabillon (II, 609) tria prima nomina huius partis (teothun. anulo. tuolo) abbatum esse indicavit quorum tertium idem esset ac Tatto. Alterā pars comm. Augiensis coll. 162 et dimid. 163 complectens plurima nomina antiquissimi comentarii Sangallensis continet: in tertia parte finem col. 163 et ineunt. 164 complectens additamenta alterius tabulae Sangallensis exhibet. Cum nominum 85, 1—8 quae defunctorum esse puto nullum in tertia, sed omnia in altera parte Augiensi occurrant, cum praeterea nonnulla nomina antiquissimi Sangallensis commentarii in tertiam Augiensem partem irrepserint et pauci recentioris Sangallensis serici monachi iam in altera Augiensi exstent, sequitur, ut alter Aug. comment. non multis annis antiquior sit quam primus Sangallensis (initio tantum nonnulli monachi enumerati sunt, qui in prima Sang. serie deficiunt) et ut tertia Augiensis series (altera Sangallensis) ab altera Augiensi (prima Sangallensi) triginta fere annis distet. Karomannus in altera serie Aug. adhuc monachus exstat. Ne quis forte omnia nomina alterius Augiensis paginae defunctorum esse credat, bene animadvertendum est, quod ei qui in Sang. comm. defuncti dicuntur, toti Augiensi commentario interspersi exstant et quod Karomannus ab. nominatur, qui tempore posterior erat. Unde sequitur: prima Sangallensis et altera Augiensis series Tattone abb. (829—839), altera Sang. et tertia Aug. 865 Karomanno abb. conscriptae sunt. Bene nota: altera Sangallensis series transcripta est ex laciniis, quae 865 conscripta sunt. 86, 6. 16 [cf. 82, 1]: 86, 11 [cf. 70, 1]: 86, 26 hodie Krotzingen (Kr. Freiburg). — 86, 1. 2 archieps. Coloniens. 1020—1036 (cf. ser. ep. Col. SS. XIII, 285. Böhmer III, 340. kal. necrol. Col. l. c. III, 313, ann. necrol. Fuld. l. c. III, 160).

Scripturae huius paginae non minus quam sequentium antiquae sunt sed diversissimis temporibus confectae. 89, 26—41 idem scriptor. 88, 5—19 et 89, 8 in ras. 87, 1 Liutolf *falce laesum. 90, 28 c.* uuentila. *Superscr. 88, 29* c, *89, 39* h *init., 90, 16* c *init., 90, 39* i. *Cf. 87—90 et 284, 13—287. 290, 1—15; nomina feminarum coll. 87—91 repetita sunt in 132, 16—134.*

Titulus huius paginae deest, quia praecedens folium abscisum est; tamen haec nomina benefactorum esse — forsitan minus nobilium — indicem. E chartis quidem hoc probare difficile est; nam si quis pellium aut axium decuriam donarit aut candelas in altare patroni sui dedicarit non opinor huic sollemni charta huius rei documentum datum fuisse: sed id quod facilius fieri poterat et piis animis non minus gratum erat: nomen libro viventium inscribebatur et tales donatores hic conscriptos esse puto. Sed forsitan 88, 27 Himmonis don. filius et Winipoldi frat. est (Wartm. I. 195). 89, 5 presb. don. anni 817 (W. I, 225). 89, 34 don. 841, uxor Fridaberti (W. II, 383). 89, 36. 37. don. eiusque mater anni 842 (W. II, 385). 88, 6. 9. consentientes 802? (W. I, 162, 171). 90, 17. 18. donn. 839 (W. I, 355, 381).

103, 2—8 viros et 105, 1—6 defunctos Hornbacenses monachos complectitur. 103, 1 Hornbach (cf. Rettberg I, 515 sq., Ge. Chr. Croll obs. II de fam. salica a fundatoribus coen. Hornbac. oriunda. Comm. Theod. Palat. VI, 187 sqq. Croll origines Palatinae I, Bipont. 1761) a. S. Pirminio († 758) 742 constr., unde Pyrminis husa (hodie Pirmasenz) inter monasterii possessiones occurrit. Situm est in Alsat. infer. Le Cointe V ad 742 n. 36 et Mabillon II, 176. 189. 355 abbatum series exhibent, prior: Jacobum, Amalandum, Wirundum; alter Dotonem, Lullonem successores Pirminii. Ex nostra ipsa tabella temporis indicium sumi non potest, sed e loco quem in toto libro occupat concludi potest eam ca. annum 839 conscriptam esse. Ex comm. Augiensi Hornbacenses (antiquissima series Augiensis monachorum Hornbac. videtur deperiisse [cf. II, 10, 38]) monachos complectente [313—346] cuius prima et secunda columnae [313. 344] viros, tertia defunctos, quarta viros et defunctos continent, sequitur ut abbatum series Amalhardus, Wirundus, Heribertus (qui postea additus est) fuerit. Animadvertas nomina Herimundi, Hamundi, Alpgarii, Erpoldi, Herirati, Hartnandi, Friduboti, Dassilonis, quae in nostra quoque tab. occurrant, et in prima et in secunda col. Augiensi reperiri, unde concludo has duas col. non multum inter se distare. Praeterea non sine momento est quod 103, 9. 104, 21. 25. 27. 28 et ipsa in prima Aug. columna occurrunt unde nomina col. 104 Hornbacensium esse apparet, quamquam hic illic laici nominati sunt. Eos laicos cum Hornbacensibus monachis confraternitate coniunctos fuisse verisimile est. 102, 5 Gamundias alterum nomen est monasterii. De 102, 3 Geroltdo com. v. ad 23, 8. 11.

Ab Hunfrido et Adalberto filio eius comitibus supra memoratis [23, 2. 3] constructum est (cf. Mabillon IV, 432. II, 355. 566. Rettberg II, 143). Cum a. 1610 aedes monasterii incendio combustae sint, nihil de antiquiore eius historia sciremus, nisi Tschudi in Raetia Alpina et in Chron. Helvet. pauca literis servasset. Post mortem Udalrici novissimi comitis Rhaetiae per filiam eius Hemmam advocatorum munus ad comites Lenzburgenses devenit (Neugart cp. 182), quibuscum inde ab medio saec. Grimoldus 792—800. (Bruschius quoque p. 172 Grimoldum post Wicterbum enumerat). Otbaldus 800—810. Adalgerus 810—830. Sonderadus sive Gaideradus ab. 830. Mabillon (II, 111) Sindoltum et Erfinan (i. Aug. (cf. F. Keller, Mitth. d. Züricher antiquar. Gesellsch. VI, 2) a. d. VII. Id. Mart. mortuus est. De rebus gestis coenobii cf. Rettberg II, 169. Pez thes. IV, 747. 761. (chron. De quibus si haec perpensas: 1. columnam 442 nulla nomina nostri comm. continere, titulumque super sequentibus columnis positum esse; 2. columnam 443 nomina nostrae columnae 111 continere, sed plurimorum titulum uno gradu inferiorem esse quam in Sang., quamquam Sindolt et Erpfman [443, 3. 4] et ipsi abbates occurrant; 3. col. 444 pauca nomina col. 111, plurima col. 112 complecti, eaque titulo addito; 4. similiter in col. 445 nomina coll. 112 et 113 conscripta esse et ipsa addito titulo; 5. defunctos 114, 1—12 in coll. 444 et 445 distributos esse; si praeterea animadvertis 445, 23 Wolfgerum epm. Herbipol. 810—832 sine dubio anno mortis inscriptum esse et ea quae ad II, 424, 1 sqq. de defunctis Ellwangensibus dicta sunt, quibus nomina coll. 111. 112. 113 repetuntur, perpendis: sequitur: 1. catalogum antiquissimum Augiens. ca. 830, nostrum ca. 839 conscriptum esse; 2. catalogum defunct. II, 424 post nostram tabulam ponendum esse. — 111, 30 Ermanricus [cf. 113, 3. 258, 5. 258, 33. II, 424, 6. 10. 11. 17*. 442, 40. 445, 27. 32.] mon., hic diac., in cod. Aug. presb., notus est ex epistola quam ca. 850—855 Grimaldo abbati misit (E. Dümmler Mitth. d. antiq. Ges. z. Zürich XII [1859], 6. p. 205—213. 248 sqq.) necnon ex vita s. Solae (Canisius lect. ant. IV, 544. 732. VI, 1326) et vita Hariolfi (SS. X, 11—15); cf. de eo Dümmlerum l. c. p. 248. Forschungen XIII, 423 sqq. Ex littera Ermanrici conclusum est Grimaldum Elchenwangiae quoque abbatem fuisse. Cum fieri non possit quin II, 424, 1. 2 aliae personae quam abbates Ellwang. fuerint, Sindoltum ante Erfmannum abbatem fuisse coniicio, quia Erfmanni ibi mentio non facta est (plerumque licet abbas regens initio catalogi ponatur, ita ut eum defuncti sequantur). Qua de causa haec series abbatum erat: Hairiolfus eps. (— ca. 780?), Wicterp (— ca. 796?), Sindoltus (— ca. 829), Erfmannus (— ca. 840), Grimaldus (872; cuius vicarium Ermenricum fuisse iam Bruschius l. c. p. 172 suspicatus est), Ratpotus? [II, 441, 4] (—887), Liutbertus archieps. Mogunt. — 889 (cui 887 Arnulfus rex abbatiam tradidit; cf. Mohr C. D. I, 51).*

Ab interpretibus haesitatum est in explicandis huius seriei nominibus. *Mone (Anz. IV, 17) 115, 4 Basalam pro Hasalam scriptum esse putarit (hodie Haslach Alsat. infer., 676 a Florentio epo. Victorem abb. et Dracolfum epm. nuncupat, omnes vero nostrae paginae nomina omittit. Non magis, si de Augusta Vindelicorum cogites, Augiensis huius urbis catalogus [II, 255 sqq.] cum nostro concordat, nam pauca tantum nomina (115, 3 Cundpert, 5[a] Herolt, 2 Bernhart, 6[a] Adalpert, 12 Egina, 14 Amalbrecht) ibi repetita sunt. Optimum videtur de Augusta Rauracorum (Basel-Augst) et ipsa Basilea civitate cogitare, episcopus licet et cetera nomina significativa non occurrant, ut in Cod. Aug. II, 321 sqq.*

Mülinen I, 115). Quae adhuc exstant chartae codicis publici iuris factae sunt ab Hohenbaum van der Meer, ipso Rinaugiensi, apud Georg. Guil. Zapffium, monum. anecdota Aug. Vindel. 1785 (H. Historia dipl. mon. Rhenaug. p. 223 sqq.). Ab Hohenbaumio de hoc catalogo bene actum est et l. c. et in cod. ms. tabularii Sangallensis (signato Class. I, Cist. C 3. B 55). Constructum est mon. 778 a Wolfhardo duce (fil. Rathardi), cuius filius Eticho et ipse bene de mon. meruit et cuius nepos Wolvene et insigniter bonis instruxit et privilegiorum confirmationem 866 et 870 a Lud. Germ. et 876 a Carolo III. impetravit (cf. Neugart cod. dipl. n. 437. 458. 500). Illo tempore magnam laudem Fintani (117, 35) sanctitas monasterio impertivit (cf. Gelpke p. 313 sqq. et vitam S. Fintani in Mone, Quellensamml. I.). Wolvine Cozbertum et postea Antwartum abbates instituendos curavit, postremo ipse abbas factus est. S. Fintanus octo diebus ante eum defunctus est (a. d. XVIII. Kal. Jan. 878). Hohenbaumius haec de catalogo nostro repperit (p. 283): monachi 117, 29—118, 11. 117, 5—8 fidem et obedientiam promiserunt ante Wolvenium abb. et ante a. 885 (exceptis 117, 5—8) mortui sunt. 117, 29—36 ex ipso tempore restaurati monasterii superfuerunt atque ideo in fine catalogi 885 conscripti additi sunt. Nonnulli eorum (117, 7 anno 853; 118, 5 a. 855; 118, 10 a. 856; 118, 2 a. 857) eidem donatores fuerunt. Initio abbas anni 885 Wichramnus [117, 2] collocatus est et deinde ascendente ordine eius praedecessores. Gozbertus omissus est quia iam inter monachos Sangallenses nominatus est (ex quo mon. prodiit). 117, 5—28 nomina sunt eorum qui a. 885 adhuc superstites erant (nonnullorum in chartis mentio fit: 117, 13 anno 870; 117, 28 a. 875; 117, 17 a. 876; 117, 12 a. 878; 117, 22 a. 892; Liutprehti manu propria scripta charta exstat. Praeterea 117, 8 filium Sigimari (118, 10) fuisse et Winitharium (117, 28) a. 875 monachum factum esse comperimus. Praeterea H. omnes qui in col. 118 exstant a. 885 (annum instrumenti confraternitatis; cf. I, app. 14) iam defunctos fuisse opinatur (triginta septem eorum numerum esse dicit) sed hac in

re diversitate scripturae redarguitur. Col. 119 eorum praesertim nomina sunt qui sub Gozberto altero hui. nom. abb. (ca. 890) recepti sunt; abbas ipse inter comites quaerendus est [cf. 33, 16. 34, 11*] sicut et S. Conradus (934—976) inter episcopos [II, 464, 3?] locum obtinuit. 119, 14—25 minore caractere scripti a Ruperto abb. (912—934) post init. saec. X^{mi} suscepti sunt, posthac mon. ab Hungariis devastatum est. Col. 120 Rinaugiae monachos nullos continet. 119, 26. 28—33 post Hungariorum devastationem a. S. Conrado addita sunt. 119, 26 idem est qui cellam albam ab Hungariis destructam tenuit. 118, 12 ab. 975—978 et 118, 13 ab. 978—985 cum sex monachis sub eorum regimine receptis adiecti sunt. Hohenb. v. d. Meer sine causa 118, 16 Albericum et 119, 2 Adalbractum eandem personam esse opinatur. 119, 2 ab. 985—992 eiusque successor 116, 1 Notker 995—1010 cum monachis suis in margine additi sunt. 119, 10 Burchardus (1010—1026) Notkero successit, deinde 116, 8 Perhtelo 1026—1040 (de cuius obitu cf. Necrol. Sang. Dümmler et Wartmann, St. Galler Mitth. XI, 1869, p. 38). 116, 10 circa finem saec. X^{mi} fuisse et saec. XI^{mo} in. abbatem S. Blasii (Cellae Albae) factum esse van der Meer opinatur. Post Notkerum nonnulli abbates omissi sunt: Burchardus et Pirhtilo, quia iam inter monachos nominati erant; Richardus 1040—1060, quia in Palaestina diem obiit; Gerungus 1060—1064; Rumoldus 1065—1069; Chuno 1097 (fortasse ob breve tempus regiminis). Ex eo quod 119, 6 Wolvene alter huius nom. abb. 1098—1104 et 119, 7 Otto 1104—1124 nominati sunt v. d. Meer vult effici ut eorum tempore foedus confraternitatis redintegratum sit. 120, 22 ab. 1124—1140. Hohenbaum ex calendario Rinaug. (e Mss. 74. 2) haec ad catalogum nostrum pertinentia protulit: Otto ab. ob. a. d. VI. Kal. Dec. 1122 Arnolfus a. d. IV. Non. Sept., Sviggerus a. d. XVII. Kal. Jun., Burchardus a. d. X. Kal. Febr., Mahtilt a. d. IX. Kal. Mart., Richinza a. d. IV. Kal. Jun. — Propria ratione Schmidtfeld mon. Sanblasianus nostro catalogo operam navavit, quamvis minus feliciter quam v. d. Meer. Gozbertum Sangallensem aut Augiensem mon. fuisse negat (Augiensem eum fuisse nonnulli coniecerunt quia Folcwigus ab. Moguntiae praesens erat cum Gozbertus a Ludovico abbatiam impetraret), sed (cum Herrgott, T. I Geneal. dipl. prol. VI. tab. I, et P. Rusteni Anom. de nud. p. 337) in charta Rinlozi anni 844 (Herrgott prob. Geneal. dipl. N. LIII. T. I. p. 26. n. 49. Neugart C. D. n. 308) Gozbaldum comitem tantum, in commutat. Thietonis in Pazmundinga a. 853 (Herrgott l. c. p. 29. Neugart C. D. n. 347) comitem et abbatem commemoratum esse statuit. Wolvenio suadente (cf. Fintani hist. Goldast I, 2 p. 103) eum monachum factum esse ideoque in charta confirmationis Ludocici non iam comitem appellatum esse (similiter indicat P. Geroldus Müller in animadverss. ad chartas Rinaugienses); in nostro catalogo eum omissum esse quia brevissimo tempore monasterio praefuit. Quod in altera charta plurali numero dictum est Cozpertus et abba dederunt, Schm. ideo factum esse vult, quod „cum consensu fratrum“ sequitur. Melius van der Meer (Millen. Rhen. C. VII Sect. I) Gozbertum ab. advocatum mon. fuisse vidit. Schmidtfeld vestigia Sanblasiana persequendo eas quas P. Ger. Müller numeris IV et V designavit chartas intra 844—852 Wolvenio iam auctoritatem exercente scriptas esse vult, quintam, qua Sigimarus S. Blasii cellam Rhinaugiensibus tradit, Gozberto abbate (Neugart C. D. n. 382 rectius 858 vel 859). Cellam Albam in praeposituram Rinaugiae commutatam esse. In vita S. Fintani (Monn. Germ. et Goldastii Rer. al. ser. T. I, c. VIII) s. Blasii reliquiae ex Rinaugiae mon. „in vicinum saltum“ translatae esse dicuntur, in cellam Albam, ut plerique opinantur, quae ab hoc tempore S. Blasii cella nominatur. Translationem factam esse, cum S. Fintanus (851 mon., 856 recl. † 878) iam dudum reclusus esset. Van der Meer (schol. ad vit. S. Findani C. VII) translationem ca. 860 factam esse coniecit, sed cum charta (Neugart C. D. n. 437) anno 866 scripta sit, reliquias melius ca. annum 870 translatas esse suspicabimur. — Cum 912 (Gelpke II, 347 sq., Neugart ep. p. 202) Hungariorum terror transiisset monachi restaurato monasterio chartas reportaverunt. Conradus e Welforum genere abbas factus est et ab Ottone primo confirmationem privilegg. impetravit, quam epistulam Otto II. ratam habuit. Cum in hac carta anni 983 (Bresslau p. 109. Neugart C. D. n. 764) verba inveniantur: „cellam in silva Schwarzwald a beato Reginberto [119, 26] constructam deo et S. Blasio tradidit“ et „eidem sancto viro qui primus ibi habitare coeperat atque omnibus ibidem deo servientibus — concessimus“, aut alium hic Reginbertum 983 adhuc superstitem ostendi aut verba ex Ottonis primi privilegio sumpta immutata in alterum Ottonis II. transiisse coniiciemus. Quorum prius verisimilius videtur, cum vir nobilis Reginhardus de Seldenburen saec. X^{mo} ex. (in Calendario 1768 combusto, Mabillon ann. III, 566 et in charta Conradi II^{di}) commemoretur. Cella S. Blasii igitur ca. 948 a sancto Reginberto (cf. Caspari abbatis lib. origg. p. 19. 20) et 1036 ab alio quodam Reginberto (Joann. de Oxsenhusen apud P. Stanisl. Wülberg T. I, Ann. S. Blas. p. 68), qui et Beringerus vocaretur, videtur restaurata esse. — Wolvenius in chartis annorum 863 (Neugart C. D. n. 417), 867 (n. 462), 875 (n. 490. 493), 876 (n. 494); Gozpertus alter huius nom. in chartis annorum 888 (n. 580), 892 (599. 600), 912 (n. 686) commemoratur.

122, 1. 2. Ca. annum 630 s. Bertinus una cum Mummolino abbate (Neugart ep. 38, Guérard cartulaire de l'abbaye de St. Bertin p. 15 sqq. SS. XIII.) in pago Ternanensi monasterium in hon. ss. Mariae, Pauli et Petri construxit quod initio Sithiu nuncupatum est (Guérard p. 18. SS. XIII. Bouquet VI n. 161) et cuius regimen cum ipse Noviomagi eps. factus esset Mummolinus Bertino tradidit. Cuius nomen defuncti accepit et episcopi Teruanenses et comites Flandriae ibi sepeliebantur. Bertino adhuc superstite Audomarus Teruanensis eps. in vicino colle basilicam s. Mariae et cimeterium pro se et pro fratribus monasterii in Sithiu insula siti condidit. Cui cum postea cellae monachorum additae essent, novum monasterium S. Audomari effloruit, et haec duo monasteria (cf. chartas apud Guérard l. c.) bona disciplina creverunt usque ad a. 820, quo Nandhario abb. mortuo Fridugisus in regimine eorum successit. Hic monachis eiectis canonicos instituit (Simson I, 342). Eius successor Hugo [22, 10] disciplinam restituit (Simson II, 144. Bouquet VI, 203) eique Adalhardus 844 successit. 122, 3 olim mon. Prumiensis, Folcuino 855 mortuo eps. Teruanensis († 870) factus est (Guérard p. 110. SS. XIII. Mabillon I, 573. III, 45. 121. IV, 172. ann. Blandin. SS. V, 23). Qui cum propter Nordmannorum incursiones episcopatu vellet decedere papa noluit eique post Adalhardi mortem 864 abbatiam regendam tradidit, quae ei iam 865 cum dedecore a Carolo erepta et Hilduino data est (Guérard p. 112). In cod. Aug. monachos huius mon. non inveniuntur, neque enim bene Schmidfeld eos qui in col. 311 nominati sunt, tales (propter 311, 30) esse indicavit. — 122, 3—5 defunctos esse puto; 121, 1—6 viros. Mirum videtur quod inter viros abbatis nomen non commemoratur, fortassis ea de causa quod abbas legitimus deerat. 122, 2 Cundbertus, Goiberti et Ebertrudae fil. (Guérard p. 155 sqq.), multa praedia monasterio donavit et cum lepida manu litteras pingere didicisset multos libros bibliothecae procuravit, primum Fridugiso abbate. Postremo nomen eius a. 868 commemoratur (de vita eius Guérard p. 79 sq.). Ceterorum nostri catalogi nominum nullum in chartis commemoratur, cum ab anno 868—1021 certius aliquid de rebus monasterii nesciamus. Mirum videatur quod ne Megenfridus quidem Ruodwaldi fil. quem Hunfridus monachum recepit (l. c. p. 111) et qui non pauca monasterio donavit nuncupatus est. Quin haec quoque tabula ca. annum 885 conscripta sit non dubito. Hunfridus eps. in Lamberti serie abbatum S. Bertini et praepositorum S. Audomari Sithiensium (SS. XIII, 389) non nominatur; occurrit tamen eius nomen inter abbates p. 391 et in serie episcoporum Morinensium SS. XIII, 389.

De scriptore v. ad pag. praeced. *210, 1 inscr. rubr.* *210, 25 c.* Helitmunt.

210, 1 mon. Wizanburg (hodie Weissenburg) 630 a Dagoberto I. constructum (Rettberg I, 643, Mabillon I, 384), 728 a sancto Pirminio restauratum, 1526 Spirensi episcopatui adiunctum est. Zeuss (traditiones possessionesque Wizanburgenses. Spirae. Lips. Vindob. 1842 p. XIV. XV. praef.) ex chartis hanc seriem abbatum delinearit: Ratfridus 693—724, Chrodoinus 729, Erloaldus 730—739, Wielandus 739—743, Daridus 744—760, Ermbertus 765—792, Justolfus 797—809, Bernharius 811—825, Gerhohus 819—826, Folcwigus 828—830 († a. d. XVII. Kal. Apr. secundum necrolog. Aug.), Otgerus 840—846, Grimaldus 833—861, e quibus Justolfus (= Haistolfus) et Otgerus simul archiepiscopi Mogunt., Bernharius et Folcwigus epi. Wormat. erant. Ratione habita duarum serierum abbatum Wizanburgensium SS. XIII, 320 et catalogorum cod. Aug. 177—184 haec manifesta sunt: 1. I. 214, 27 usque ad 218, 12 = II, 184, 1—38. 183, 26—38. Haec nomina recentiora esse oportet quam Folcwigum episcopum (823—841) [II, 183, 1]; verisimile est ea Grimaldo abbate ante annum 840 conscripta esse id quod certum fit alia re considerata: In paginae LXIV. codicis Augiensis prima et altera columna Senonicensis monasterii fratres enumerantur, sed in coll. II, 252. 253 Wizanburgenses monachos deprehendimus, eos fere qui I, 214, 27—218, 12 enumerati sunt et II, 183, 26—184, 38. Hae columnae (252 sq.) scriptae sunt, cum in pagina LXIV. spatium non relictum esset. Quare hunc catalogum altera abbatiae Grimaldi periodo conscriptum esse supputo. Unde seqitur — id quod non sine momento pro litterarum historia videtur — Otfridum [II, 184, 22. 252, 19] non tantum posteriore tempore sed iam ante a. 840 monachum Wizanburgensem fuisse (cf. prooemii edit. meae Otfridi p. 41). 2. In coll. II, 181, 24—182, 33 non pauca nomina columnarum 183. 184 eodem ordine repetita invenimus, unde colligendum est hanc seriem (183. 184) non multum post illam conscriptam esse. Otgeri monachi in illis coll. esse non possunt, cum Folcringi catalogus (183, 1—14) subsequatur; Gerhohi potius monachos in col. 182, 1—33 habemus. Id quod alio calculo confirmatur. In abbatum serie II, 177, 1—3 miramur quod ordo quem alias observamus talem ut recentissimus abbas in fronte ponatur, caeteri ordine descendente subsequantur, neglectus est id quod aliter explicari nequit quam quia Gerhohus in prima scheda Wizanburgensium in margine vel ad dextram partem additus erat et quod postea ab eo qui catalogum transcripsit, inscite Gerhohi nomen falso loco insertum est. Unde monachos quoque Gerhohi in prima scheda adiectos esse sequitur. Restat ut monachi 177, 4—181, 23 Justulfo et Bernhario abbatibus recepti sint. Bernharii monachi forte ab 180, 22 initium capiunt. Quod in his quoque nomina posteriora (e. g. I, 214, 25—33) recurrunt, nihil impedit, quominus quae dixerim iusta sint, nam ut hoc quoque tempore monachi recepti sint, qui adhuc Grimaldo abbate superstites fuerint concedi potest. Hoc enim manifestum est in Augiensi exemplari Wizanburgensium eosdem diversis temporibus saepius repetitos esse id quod alias vitatur. 3. In serie abbatum Sangallensi (I, 210, 2—7) ordinem temporis bene observatum reperimus, sed Gerhohum in Augiensi exemplari postea additum

omnino desideramus; qua de causa hoc factum sit percipi non potest. Fieri potest ut Bernhario substitutus sit, cum hic episcopus factus esset, et quasi eius vicarius functus sit abbatia. Praeterea Ato eps. [210, 5] additus est, quem eundem esse suppnto ac II, 177, 5 et qui cum antea mon. Wizanburgensis fuisset et postea eps. (Basileensis 802—822?) factus esset in primae schedae margine additus erat. Simili ratione 210, 8 Benedictus eps. (Spirensis 814—828) [cf. II, 181, 18] videtur intrusus esse. Neutrum abbatem Wizanburgensem fuisse constat.

Pauca adhuc de persona Otfridi poetae hic addere libet. Cum in Augiensi catalogo Wizanburgensium eadem nomina diversis temporibus repetita inveniri ostenderimus, II. 182, 30. 184, 22 (de accentu cf. meae editionis p. 7) et 252, 19 eandem personam esse apparet. Cum cum 182, 30 postremo additum esse scriptura doceamur nostro iure cum postremis Gerhohi temporibus ca. 825 monachum receptum esse, primum abbatiam gerente Grimaldo rursus Wizanburgi fuisse (cum ca. 830 eo rediisse in editionis meae p. 41 supputavi) et Grimaldo in abbatiam restituto post 847 tertio ibi fuisse concludemus. Chartae donationis Hainrici et Alberici (a. d. XVII. Kal. Aug. 837 datae; cf. Zeuss p. 154 n. 166) hi testes subscripti sunt: Milo [I, 215, 29. II, 178, 30]. Teganhart. Weliman. Watheri (Wacheri I, 215. 17?). Ercanbald [I, 215, 18]. Holzolf. Rantwig. Gisalmunt. Heriolt [I, 215, 10 erlolt?] Heriolf. Albrih [I, 215, 28]. Hucbaldus [I, 215, 13], quos cum nostris hic illic concordare apparet. Etiam in charta anni 840 (Zeuss p. 140 n. 151) de donatione Adalhelmi de Alisacinse Otgario abbate scripta haec nomina occurrunt: Gunbraht (I, 215, 30?), Erlolf (I, 214, 29), Ercanbald (I, 215, 18), Isanbraht (I, 215, 6), Hildibo: (I, 215, 11), Hucbaldus (I, 215, 13). Sed cum haec tempore scripta sit quo sine dubio magnae mutationes in monasterio factae sunt, ea niti vix convenit; priore vero docemur nostra quoque nomina circa annum 837, fortasse 839, primum conscripta esse.

Iam animadverti oportet nomina columnarum 210—214, 26 (28—33) passim in II, 177, 1—181, 26 occurrere. Sed si — facili labore — conspectum rationis distribuendi feceris, difficulter dicas utrum in I, 210—214 conglomeratio nominum in schedis primariis traditorum an aliquid aliud quaerendum sit. Equidem illa ratione facillime omnia resolvi indicari et primum catalogum Sangallensem (qui repetitus est in 210, 1—3. 9—213) Folcwigi tempore ca. 829 scriptum fuisse indico.

Magni ponderis est quod ex nominibus Wizanburgensibus in cod. Aug. repetitis perspicuum fit monachos secundum tempus quo obedientiam pollicendo inaugurabantur hic ordinati sunt; id quod in caeteris quoque commentariolis regulam fuisse licet suspicari.

De scriptura v. ad pag. XLVIII. 228, 4 *c.* Haiani. *Alio atramento utitur scriptor inde a* 228, 9. — 226, 1 *c.* FRAM.

S. Pirminio suadente Kenginbach (hodie Gengenbach) 727 a Ruthardo constructum, 855 restauratum est; cf. Rettberg II, 84. Franc. Petri Suevia ecclesiastica p. 346. Grandidier histoire de l'Eglise de Strassbourg. Eccard de reb. Franciae I, 360. Mabillon, ann. IV, 643, qui abbates secundum nostrum et Augiensem commentarium enumerat. II, 196—199 plenior Kenginbacensium monachorum index exhibetur, quem ante 949 totum scriptum esse inde elucet quod Hartbertus eps. Curiensis (949—968) in fronte nominatur. Duos catalogos in Augiensi tabula statim videmus: 1. Monachorum Germundo abb. 196, 1 sqq. 2. monachorum Alframno abb. 199, 1 sqq. Cum Adalhelmus abb. 198, 3 et Lando abb. 199, 2 postea additi sint, certum non est an huius monasterii fuerint. Adalhelmus fortassis idem est atque eps. Wormat. 873—890. Praeterea 199, 18 Thomas abb. commemoratur. Miramur cur alius eadem manu scriptus praecedat, neque aliter id explicare possumus atque ita ut Hiltibertum episcopum abbati praepositum fuisse dicamus (Moguntinum? 928—937). Ego quidem persuasum habeo nomina II, 196, 1—38, 197, 1—37, ex antiquiore scheda transscripta esse. In posteriore duo catalogi, Germundo abb. et Alframno abb., monachorum Kengenbachensium recepti erant, caetera in ipso èxemplari Augiensi adhuc conservato addita sunt ca. et post annum 900. I, 226, 2 Emilo tempore alterius schedae Augiensis additus est [cf. II, 199, 2]. Praeterea animadvertas: in col. II, 196 monachos tantum coll. I, 226. 227 inveniri, in fine pauca col. I, 228 nomina; in col. II, 197, 1—26 monachos columnae I, 227, in fine pauca columnae I, 228 nomina; in col. II, 198, 1—27 nomina unius col. I, 228 cum paucissimis col. I, 227; in col. II, 199, 1—14 monachos coll. I, 226, 227, unde sequitur abbatum seriem fuisse: Germundus (eius monachi II, 196, 1—197, 37), Alframnus (qui brevissimo tempore abbas fuit, ut parvo numero monachorum sub eo receptorum docemur), Emilo abb. (qui cum titulo in cod. Aug. non est nominatus, cum iam inter monachos 199, 2 enumeratus esset, sed monachi sub eo recepti II, 198, 6—20 nuncupati sunt, cum caeteris sub eo superstitibus I, 226, 2—229, 5). Deinde Adalhelmum, Landonem et Thomam successisse opinor, si haec abbatum Kengenbacensium nomina sunt. Cave ne II, 199, 1—16 defunctos esse putes; sunt enim alia scriptura additi. Si temporis indicium e praecedentibus catalogis Augiensi et Sangallensi Wizanburgensium sumere liceat, suspicer Germundum ca 815—825 Alframnum ca 825—828 Emilonem inde ab a. 828 deinde Adalhelmum Landonem et Thomam circiter usque ad a. 925 abbatiae praefuisse.

Ansbaldus abb., antea monachus Prumiensis (epist. Lupi ed. Marcwardus abb. Prum. 10. 85), abbatiae regimen suscepit 860, mortuus est a. d. IV. Id. Iul. 886 (secundum Reginonem SS. I, 586, 54). Ipse Eigilo successit (SS. I, 577, 11). Monasterium, cui praefuit a Pippino rege et Bertha regina constructum esse dicitur, sed de Angloaldo quodam abb. iam ca. a. 720 audimus. Piget quod in optimo libro Augiensi series monachorum Prumiensium antiquissima deperiit, nam post p. LIX. (cf. II, 10, 39) frustra eam quaerimus; quae exstat series Prumiensium (II 335, 18) videtur postea addita esse: nihilominus antiquior est quam nostra, cum Eigilo abbate (853—860, quo archieps. Senon. factus est) scripta sit. Hunfridus qui ibidem commemoratur, Teruanensis eps. fuit (856—870), antea mon. Prum. (cf. I 260, 24. II 2, 34), sed inter monachos iam pauci occurrunt, qui Ansbaldo adhuc abbate superstites erant: II 335, 20 Adalbertus = I 260, 6; II 335, 22 Filimarus = I 260, 12; II 335, 22 Christianus = I 260, 35; II 335, 23 Madalwinus = I 260, 33; II 335, 24 Waldpertus = I 261, 4; II 335, 25 Ropertus = I 261, 27; II 335, 26 Bernardus = I 261, 31; II 335, 26 Rauengarius = I 260, 21; II 335, 27 Norbertus = I 261, 28. — Alius qui in Aug. exemplari extat Prumiensium catalogus (II 661 sqq.) multo recentior est, nam Ingramnus abb. († 976), Heberhartus abb. († 986), Hillericus abb. († 993), Stephanus abb. († 1001) in fronte eius positi sunt. Majorem fructum percipimus e libello aureo Prumiensi (H. Beyer, Leop. Eltester et Ad. Goerz, Urkundenbuch zur Geschichte der mittelrheinischen Territorien I. II), cum quinque eius temporis chartae exstent, quae monachorum nostri catalogi mentionem faciant 1. ca. 861—884 (l. c. I p. 101, n. 98); 2. ex anno 866 ex. (l. c. p. 109, n. 150); 3. ex Maio mense a. 880 (l. c. p. 122, n. 118); 4. ex Februario 881 (l. c. p. 123, n. 119); 5. ex Febr. 882 (l. c. p. 125, n. 120). Sequentes monachi ibi commemorati sunt: I 260, 6 (2), 8 (1. 2), 9 (1—3), 10 (3. 4), 12 (1. 2), 17 (1—3), 18 (1. 2), 19 (1—5), 21 (2), 22 (1), 23 (3), 24 (1—3), 29 (3), 31 (4. 5), 32 (3), 34 (2), 35 (1. 2). 261, 1 (1. 2), 2 (2), 3 (1), 5 (1—5), 6 (2—5), 7 (1), 10 (1), 11 (2), 13 (1. 3. 5), 11 (5), 15 (1. 4), 16 (1—4), 17 (1. 2. 4), 18 (2. 4), 19 (1), 20 (1). 21 (1—5), 22 (1. 2. 4), 23 (2. 3. 5), 27 (2. 4? 5?), 28 (1. 2), 31 (2), 32 (1. 2); 262, 2 (1), 3 (1), 4 odo (1. 2. 3. 5), 5 (1. 2. 4), 6 (1), 7 (1. 5), 8 (2), 9 (1. 4. 5), 10 (1), 11 (2), 12 (1. 3. 5), 13 (1. 2). 14 (2). 15 (1), 16 (3? 5?), 21 (1. 2. 4. 5). Praeter haec in prima charta Ganzbertus mon., in altera Bernicho presb. et Uido mon., in quarta Ekkebertus, item Rodingus et Alibertus, in quinta Firmatis, Herimannus, Betto inveniuntur. Ansbaldus abb. praeter has quinque nominatur in sedecim chartis annorum 860—884 (l. c. I p. 99—128). Nihil emolumenti praebent annal. Prumienses (SS. XIII, 219). cf. notam ad II 2, 11 sqq.

Scriptura nominum 264, 18—20 in pag. LXXII. quoque reperitur. Utrum 265 et 266 eiusdem scriptoris sint necne, nescio.

Prumienses hic nullos habemus cum in ipsa prima columna iam feminae occurrant. 264, 16 potius de Passariensi (915—931), quam de Engolismensi (897 — a. d. X. Kal. Apr. 941; cf. ann. Engolism. SS. IV., Adem. hist. SS. IV, 126) cogitandum est. 264, 17 quoque propter locum episcopum (eumque Generiensem 967—978) esse suspicor. 264, 18 Lusonensis 968—985 (cf. ann. Laus. SS. III. 152, Mülinen Helvet. sacr. I, 20, Zapff, monumm. anecd. Aug. Vindel. 1785 in diplomatario miscello ex Cartulario Lauson). 265, 1 [cf. Henrici nat. 911 (Waitz p. 20) aut a. d. IX. Kal. Nov. (Köpke et Dümmler p. 6), rex 936 (l. c. p. 565 sqq.), imp. a. d. IV. Non. Feb. 962 (l. c. p. 330 sq.), † Non. Mai. 973 (l. c. 510). Otto I. et Otto II. 972 s. Gallum visitaverunt (l. c. 488), sed nostram notam ante hoc tempus factam esse facile apparet. 265, 4 alter fil. Henrici reg. nat. 919 (l. c. p. 127), 948 dux Baioar., † Cal. Nov. 955 (l. c. p. 267 sq., ann. necrol. Fuld. SS. XIII, 198). 265. 5 tertius fil. Henrici reg. nat. Maio mense 925 (l. c. p. 14. Waitz p. 111. 118) a Balderico epo. Ultraiectensi educatus, 953 archieps. Colon. (Köpke et Dümmler p. 220) et dux Lothar. † a. d. VI. Id. I, 627. Sigeb. chr. SS. III 351). 265, 7 altera Henrici reg. fil. nata ca. 922 (Köpke et Dümmler p. 16), 937 Hugoni regi nupsit (l. c. p. 62). Ab ea devenit Wendilgarda (cf. cas. S. Galli). 265, 8 dux Lothar. maritus Kerbirgae 929 (Waitz p. 124) fluctibus submersus 939 (Köpke et Dümmler p. 92). Unde sequitur hunc catalogum inter 929—939 conscriptum esse. 265, 9. 10 parentes Mathildae reginae (Waitz p. 18) Dania et Fresonia nati. Qui nominati non essent, nisi Henricus adhuc superstes esset, unde nostram seriem post 926 et ante 936 conscriptam esse apparet. Cf. nomina regiae Saxonicae familiae II 247, III 55. Praeterea Goldastius uberiorem Saxonici comitatus catalogum in suo exemplari Sangallensi repperit, quem cum hodie desideremus, secundum Goldastium repeto:

298, 1 hodie Katzis (Domleschgerthal) a Paschali Curiensi conditum, et a filio eius ac successore Victore II. finitum (cf. Mülinen, Helvet. sacra I, 12: econtra Gelpke l. c. p. 453—495, qui Paschalim et ipsum episcopum fuisse indicat). Ecclesia filia est Hohenrealtensis (Nüscheler, die Gotteshäuser der Schweiz. I, p. 94): prima abbat. erat Vespula, soror Victoris II., cui successit Ursicina minor natu soror (Gelpke l. c. p. 463, Rettberg II, 143). Mabillon (II, 165) hunc catalogum ca. 756 conscriptum esse vult, sine ulla causa, cum abbatissae, magis etiam quam abbates, neglegerentur quod ad accuratam definitionem temporis attinet (cf. Karajan p. XXXIV. ad 40, 5). Utrum et quando hic catalogus ex antiquoiri exemplari transscriptus sit nescio.

Prima nomina col. 355 in codicis Aug. col. 325, 1 sqq. inter eos qui Fridebertum epm. sectabantur exstant unde sequitur Fridebertum ca. viginti annis ante Iringum fuisse. Hartwig eps. II 327, 2 sine dubio Passaviensis est (840—866), qui sequitur II, 327, 6 Iringus, Basileensis ca. 883—895. Quaeritur quid de Adalwino I 355, 2. II 327, 1 cogitandum sit, cum in antiquissima serie abbatum Basileensium (SS. XIII, 374) omissus sit: In Augiensi codice sine dubio postea intrusus est, (similiter ac II, 324, 2 Irinc eps., qui iam 327, 6 nominatus est), et cum monachi eius in Augiensi cod. nusquam inveniantur, suspicio oritur ne sit alius sedis eps., Ratisbonensis (791—817) aut Iuvaviensis (859—873). Cum noster catalogus ex antiquiore exemplari transscriptus sit fieri potest, ut in ista scheda antiquissima Sang. et ipsa Adalwinus intrusus sit et tali modo in nostram seriem devenerit. At cum in col. 326, 2 sine dubio Basiliensium nomina paulo recentiora quam col. II, 324 addita sint (= coll. 355. 356. 357. nostri codicis), sine dubio eos qui sub praedecessore Iringi et successore Frideberti recepti sunt hic videmus, cuius nomen in Peradologo [II 326, 1] invenisse opinor, qui idem ac Rodulfus vel Radolfus serici antiquissimae esse debet; ita ut haec sit episcoporum series: Fridebertus — ca. 860, Peradoloh ca. 867 — ca. 872, Iringus ca. 883—895.

Nonnullorum tempus e chartis accuratius definiri potest, multi ignoti sunt. 375, 5 scriptor chartae ca. 720—737 (W. I, 4). 375, 7 test. 744 (W. I, 9). 375, 8 = Lantoeni ca. 720—737 (W. 378, 1. EGINO eps. videtur erasum esse, Constant. 781 — a. d. VIII. Kal. Sept. 811: et Werdo ab. 786 (W. I, 105) — a. d. XIV. Kal. Sept. 812 (W. I, 210). Hi duo viri animorum quasi propinquitate coniuncti erant (Gelpke II, 302), et semper ambo nomina in fronte chartarum leguntur. Primas septem paginas libri promissionum hic transscriptas extare iam dictum est; nostrae paginae nomina in antiquissima scheda Eginone epo. et Werdone abb. conscripta esse apparet, et primas septem paginas ca. a. 808 (cf. 382, 17) transscriptas esse docebimus, unde factum est, ut Eginonis quoque nomen (qui postea monachis Sangallensibus maximo odio erat, cum monasterium episcopatui Constantiensi adiungere vi et arte studeret) transscriberetur, nam illo tempore Wolfleoz, patruelis Eginonis abbas sancti Galli mon. erat (811—816: eps. Constant. — Id. Mart. 839). Eginonis igitur nomen post annum 816 deletum esse oportet, quo a Gozberto abbate monasterium e Constantiensium episcoporum complexu ereptum est. Ita id quoque explicatur, cur Waldo ab. Sang. (781—784) non nominatus sit, qui cum Eginoni 784 succubuisset Augiam se recepit: is enim neque Eginone epo. neque Wolfleozo abbate legitimus fuisse abbas indicabatur. De Ruadberto abb. qui a monachis electus uno anno abbatiam rexit v. supra ad 377, 8 et Wartm. I, 93 ad num. 98. 378, 2 presb. 775 (W. I, 79), 785 (W. I, 107), ca. 786 (W. I, 109); 775 igitur iam duos eius nominis monachos in mon. fuisse oportet [cf. 377, 8]. 378, 3 presb. 762 (W. I, 36)? 378, 4 presb. script. 785 (W. I, 102), test. 787 (W. I, 112), presb. 791 (W. I, 31) [de scriptore anni 761 (W. I, 31) cogitari non oportet]. 378, 5 presb. 772 (W. I, 63), 776 (W. I, 80), 779 (W. I, 87. 91), 780 (W. I, 93), decan. 786 (W. I, 109), presb. 798 (W. I, 151). Quare fieri non potest ut idem sit atque eps. Const. (cf. 378, 1). Utrum idem sit ac testis 761 (W. I, 30), 805 (W. I, 185. 186), nescio: certum est testem huius nominis qui inde ab a. 827 occurrat alium esse. 378, 6 mon. 776 (W. I, 80), mon. script. 782 (W. I, 98), test. 787 (W. I, 112), 791 (W. I, 128), presb.? 798 (W. I, 191): anno 776 duo Vincentii (decanus 377, 4 et mon.) in coenobio erant. 378, 7 presb. script. 772 (W. I, 67), 773 (W. I, 69), presb. 779 (W. I, 87. 91), test. 780 (W. I, 93), 787 (W. I, 112), presb. 798 (W. I, 151). 378, 8 ex chartis nihil certi de eo afferri potest, nam Lubucio 817 (W. I, 224), don. 819. 820 (W. I, 243. 248), test. 835 (W. I, 353) nulla ratione videtur in locum quadrare. 378, 9 [cf. 376, 23] mon. 776 (W. I, 80), test. 787 (W. I, 112), 791 (W. I, 128): num de scriptore 802 et teste 818 (W. I, 87), portar. 779 (W. I, 91), test. ca. 786 (W. I, 109), 787 (W. I, 112); 807? (W. I, 193). 378, 15 [cf. 377, 8. 378, 2] presb. 798 (W. I, 151), test. 807 (W. I, 193). 378, 17 [cf. 386, 16] test. 775? (W. I, 74. 75. 77). 378, 18 cellar. 779 (W. I, 87), test. 787 (W. I, 112). 378, 20 don. 769 (W. I, 52), quo anno monachus receptus est, nam in charta legitur: „me ipsum ad ipso monasterium ad monachum trado“. 378, 22 don. 787? (W. I, 113). 378, 23 presb. 766 (W. I, 49): et si don. 788 (W. I, 117), forsitan et scriptor 812, propter locum (W. I, 210). 378, 25 presb. scr. 786 (W. I, 106), test. 787 (W. I, 112): forsit. don. 770? (W. I, 58). 378, 26 test. 786? (W. I, 108): an pro Puazone teste qui saepius occurrit? 378, 27 [cf. 386, 15. 387, 22. 392, 3] test. 786? (W. I, 108).

Omnes huius paginae monachi ante annum 780 recepti sunt, id quod optime ex eis quae ad 378, 20 observata sunt cognoscitur. Qua de causa titulum 378, 1 in scheda prima postea additum esse oportet, ita ut primum EGINO eps., deinde Egino eps. et WERDO ab., deinde WALDO et WERDO ab. et tandem rasura et WERDO ab. scriptum fuisse suspicer.

non modica et in id ipsum a rege Anglorum eadem sibi tradita visitatis in IDIBUS OCTOB. venit ad mona steriumsancti Galli. Quique gratissime a fratribus susceptus et eiusdem patroni nostri festivitatem cum illis celebrando quatuor ibidem dies demoratus est. Secundo autem postquam monasterium ingressus est, hoc est in ipso depositionis sancti Galli die, basilicam intravit et pecuniam copiosam secum attulit, de qua partem altario imposuit, partem etiam utilitati fratrum donavit. Post hęc eo in conventum nostrum introducto omnis congregatio concessit ei annonam unius fratris et eandem orationem, quam pro quolibet de nostris sive vivente sive vita decedente facere solemus, pro illo facturam perpetualiter promisit. Hec sunt autem nomina que conscribi rogavit: Rex Anglorum Adalstean. Keonowald episcopus. Wighart. Kenvun. Conrat. Keonolaf. Wundrud. Keondrud.

(6.) [p. 6] Anno ab incarnatione Christi domini DCCCCVIII. regnante HLudowico Arnolfi imperatoris filio, undecimo regni ipsius anno, indictione undecima, ID. OCT. die sabb. in vigiliis sancti Galli confessoris, venit beatae memoriae nobilissimus Augustae Vindelicae pontifex Adalbero iuncto sibi mitissimo Sebonensis ecclesię antistite Meginberto in monasterium sancti Galli eius cupiens interesse festivitati. Cumque ipsam venerandae solemnitatis in coenobio noctem duxisset, mane basylicam ingressus ad sancti confessoris tumbam accessit. Deinde fratribus ad se dextro altaris lateri coniunctus accersitis crucem auream gemmis interpositam calicemque onichinum auro et gemmis eleganter paratum cum patena aurea nihilo minus gemmata altario imposuit, palliolum etiam casulamque pretiosi generis, necnon albam cum cingulo stolaque ac mappula, cunctis his auro perfectis, eidem applicuit arae. Sed et magnam caerae copiam sanctæ contulit aedi. Campanum quoque mirae magnitudinis et eximiae sonoritatis loco contradidit. Exhinc sancti Otmari loculo accedens ipsius arae palliolum satis pretiosum superexpandit. Post haec sancti Petri ecclesiam ingreditur magnæque inibi aestimationis palliolum condonat. Sequenti vero die, in qua sancti dedicatio templi colebatur, plerosque monachorum precipuis honoravit eulogiis. Quibusdam purpuras Ty[p. 7]riacas, quibusdam autem palliola viridia cum camisilibus seu glizis donavit. Tertia itidem die unicuique fratrum pellicium cum pelle curtamisia dari precepit. Quarta item die cuncti per ordinem iterata ab eo munera perceperunt, scilicet aut sagum laneum album aut camisile subtile ac grande seu chozzonem sive lenam opere plumario contextam. Eademque die refectorium omne miro apparatu ornavit, tapetibus videlicet plumatis sessiones fratrum undique sternens, quae simul numero XIII fuerunt, pulpitum etiam facitergula cocco imaginata circumdari iussit gradusque eius tapetio velari. Necnon et palliolum grandis pretii a tergo fecit abbatis suspendi mensasque omnes operimentis mandavit glizinis vestiri. Sed et foris ostium refectorii eiusdem texturae manutergiæ sunt hinc et inde suspensae. Convivium quoque de suo eadem die cum omni sufficientia ciborum et potuum universæ fratrum generalitati instrui precepit. Calices etiam argenteos et ipsos pergrandes secum attulit monachorumque eos usibus deinceps deputari mandavit. His exactis idem liberalissimus præsul pyrale congregationis intravit pectinesque eburneos magnitudine et artificio insignes catenis fecit aeneis ibidem suspendi ac manutergias per singulos singulas adiungi. Preter haec benignissimus antistes tota illa ebdomada in monasterio consistens cottidianae fratres refectionis abundantia et iocunditate lętificavit [p. 8] uberrima; sed et omni pene in monasterio familiae munificentiae

(8.) [p. 11. l. 6] Anno post incarnationem verbi divini DCCCCLXVIII. indict. XII. imperante serenissimo cęsare Ottone anno IIII., expectabilis excellentię vir, domnus Chuonradus pontifex Constantiensis ecclesię venerandus venit ad monasterium sancti Galli, cui tunc abba probatę sanctitatis Purghardus pręfuit, causa orationis et redintegranda conditione divinę ac fraternę dilectionis, quam iam pridem cum abbate eiusdem cenobii Thietone et postmodum cum religioso successore eius Cralone fecit fratribus uniformi conspiratione concordantibus, ut ob amorem eius ac multimoda munificentię suę beneficia tum privatis specialiter, tum in commune bonum universaliter collata tam singulari quam generali oratione semper eius memoria ab omnibus frequentetur. Annonam quoque fratribus constitutam pro salute corporis atque animę eius pauperibus cottidie erogandam, quousque vitę huius consummaverit cursum, et postquam deo vocante exutus terra celo spiritus reddatur, ad anniversarium et insuper trigesimum depositionis eiusdem firma ratione devoverunt, quod usque hodie deo gratias expletum et indefatigabili devotione observandum tenetur. Tempore vero pręnotato, id est sabbato ante dominicam indulgentię, idem eximius pręsul eundem sanctum locum ingrediens honorifice susceptus, ut dignum erat, crastinum diem crucem cum ramis [p. 12] palmarum tollendo, dominum sequendo, missas spiritaliter celebrando, quam plures de monachis et de clero diversis gradibus salubriter ordinando, viam mandatorum dei cunctis generaliter mira ac paterna doctrina pręedicatione ostendendo, innumeros etiam utriusque sexus unctione chrismatis sanctę fidei aggregando in divinis laudibus letus exegit. Die autem tercia congregatis ad collationem fratribus ipse eo invitatus stetit in medio fratrum, memorans licet bene recolentibus, qualia et antea pollicita sunt, et ut denuo fraternitatis communio renovetur petiit, ut in oratione quę omni die fit in basilica sancti Petri ab omnibus pro imperatore et pro cęteris benefactoribus et tutoribus nostris ei specialiter pro vinculo caritatis psalmus C.XL.II. canatur et in eadem missa quę ibi fit pro defunctis, III missales orationes illo tam vivo, quasi esset defunctus, agantur.

(9.) [p. 13] Anno ab incarnatione dei DCCCC. LXXX. II. imperante serenissimo Ottone imperatore iuniore, X. anno postquam post patrem augustum solus cepit monarchiam, indictione X. VIII. idus Maias, religiosissimus Eginolfus ecclesię Losenensis antistes a liminibus apostolorum rediens venit ad monasterium sancti Galli, cui iam pridem ob memoriam disciplinę qua pueritię adolescentięque diebus in eodem loco gratantissime imbutus est, plurima largitatis suę insignia nunc in thesauris sanctuarii ornatibus congruis, tum etiam sustentaculis fratrum ibi deo militantium usui necessariis impertivit, confidens se sanctorum patrocinia apud deum ibidem impetraturum simulque in aspectu multum ante dilectę congregationis gavisurum. In ipso autem ingressu eius quanta benignitate abundaret ostendit, nam multorum pignera sanctorum, quę et a cubiculo domni apostolici in Romana urbe impetraverat et a propria diocesi seu tota provincia Burgundię extulerat, eidem cenobio intulit, scilicet ut eiusdem incolis multiplicato numero intercessorum fieret augmentum meritorum. Cumque ab abbate tunc precipuę sanctitatis Ymmone et ab omni congregatione affectu quo dignum erat susceptus esset, suę eos presentię affabilitate nimium laetificavit, II. enim feria IIII. ebdomadę sanctorum pascalium dierum illuc veniens amore eorum incitatus usque ad exactum sancti pentecostes diem pausavit, crebra fratres omnemque familiam sancti loci munificentia alimentorum exhilarans. Inter hęc rogatus ab abbate, ut locum quendam in pago Aregewe, nuncupatum Huncinga, quem ipse antea ex heredita[p. 14]rio iure suo eidem sancto monasterio contradidit, sed sibi dum viveret usum fructuarium reservavit, censu videlicet quotannis persoluto, eiusdem monasterii usibus penitus mancipare, solita sibi dapsilitate petitioni annuit conditione, quę infra notabitur. VI. kal. Iun. ingressus, ubi abbas cum generalitate fratrum considebat, eandem possessionem cum omnibus eius fructibus funditus utilitati sanctę congregationis attribuit, eo scilicet pacto, ut neque per beneficium foris, neque subiectionem alicuius ministerii intra monasterium usus, qui exinde acquiri possit, fas sit fratribus auferri, sed bis in annis singulis, hoc est semel in festivitate sancti confessoris Martini et in alio aliquo die, dum viveret, post obitum autem suum in anniversario eiusdem cum sufficientia, quę inibi inveniri valet, monachis familięque sancti Galli ministretur. Precabatur etiam, ut et aliquid ei ex rebus supra memorati sancti in vicinitate nominati cenobii prestaretur, unde iteratus seu frequentatus eius adventus, quod maxime cupiebat, non solum non esset honerosus abbati, verum etiam fructuosus multum amatę fraternitati. De quo etiam supplicabat, ut si quid forte seu de sua patria illatum, seu in eisdem locis augmentatum post ipsius obitum inveniretur, reservatis incolis et culturę locorum necessariis reliqua trifarię partita ob eius animę quietem distribuerentur, quippe ut una pars fratribus, altera familię intra monasterium, tertia pauperibus erogaretur. Cuius petitioni abbas cum omni congregatione affectuose annuens, quicquid in Henowa eo die usuum habuerat, sive in salica terra sive decimis, mansoribus tributisque [p. 15] vel quibuscumque rebus ad eundem locum pertinentibus, et in Wate II mansus et in Pernanch vineam prius abbatis arbitrio privatim pertinentem, omnia cum prioribus colonis, et in Rorskachen sagenam cum piscatoribus cunctisque utensilibus necessariisve cum manu advocati Liutolti, qui etiam tunc intererat, prout idem episcopus petierat, prestitit. Insuper etiam universi in sacro illo consessu conspiravere, ut tam ipsi quam post eos in eo loco deo militaturi pro eodem liberalissimo pontifice seu in corpore manente, sive feliciter ad deum migrante, eadem, quę pro unoquoque eorum solet, assiduitas precum solveretur simulque consuetudinalis annona tribueretur. 2 *cod.* Scī B. 4 *In fine paginae 18ae duae formulae rotuli, quibus obitus fratris aliis monasteriis fraternitate Sangallensi coniunctis indicari solebat, a duobus aliis scriptoribus additae sunt, quarum tenorem infra edemus; praeterea sequitur formula promissionis, de qua v. infra. Inde a 14ta linea pag. 15. usque ad pag. 18rae lin. 11mam sequentia leguntur:* PAPAE DECRETUM BEATI GREGORII. Quam sit necessarium monasteriorum quieti prospicere et de eorum perpetua securitate tractare, anteactum nos officium, quod in regimine coenobii exhibuimus, informat. Et ideo quia in plurimis monasteriis multa a presulibus preiudicia atque gravamina pertulisse cognoscimus, oportet, ut nostrę fraternitatis provisio de futura quiete eorum salubri disponat ordinatione, quatinus conversantes in illis in dei servitio gratia ipsius suffragante mente libera perseverent. Sed ne ex ea, quę magis emendanda est, consuetu[p. 16]dine quisquam monachis quicquam moleste presumat inferre, necesse est, ut hęc, quę inferius enumeranda curavimus, ita studio fraternitatis episcoporum debeant custodiri, ut ex eis non possit ulterius inferendo inquietudinis occasio repperiri. Interdicimus igitur in nomine domini nostri Jesu Christi et ex auctoritate beati Petri principis apostolorum prohibemus, cuius vice huic aecclesiæ Romanę auctore deo presidemus, ut nullus episcoporum ultra presumat de reditibus, rebus vel cartis monasteriorum, vel de cellis seu villis, quę ad ea pertinent, quocumque modo qualibet exquisitione minuere, nec dolos nec inmissiones aliquas facere, sed si qua causa forte inter terram venientem ad partem suarum aecclesiarum et monasteriorum evenerit et pacifice non potuerint ordinari, apud electos abbates et alios patres timentes deum sine voluntaria dilatione mediis sacrosanctis euangeliis finiantur. Defuncto autem abbate cuiusque congregationis non extraneus nisi de eadem conversatione, quem sibi propria voluntate concors fratrum societas elegerit et qui electus fuerit sine dolo vel venalitate aliqua ordinetur. Quodsi aptam inter se personam invenire nequiverint, sollerter sibi de aliis monasteriis similiter eligant ordinandum, neque constituto abbate quęcumque persona qualibet occasione preponatur nisi forte exstantibus, quod absit, criminibus, quę sacri canones punire monstrant. [p. 17] Pariter autem custodiendum est, ut invito abbate ad ordinanda alia monasteria aut ad ordines sacros, vel ad clericatus officium tolli exinde monachi non debeant; sed si abundantes fuerint, qui ad celebrandas dei laudes vel utilitates loci complentes sufficiant, de his, qui superfuerint, offerat abbas coram deo, quos dignos potuerit. Quisquis autem ex monasterio ad ęcclesiasticum ordinem venerit, ulterius illic nec postestatem aliquam nec licentiam habeat habitandi. Descripiones quoque rerum aut cartarum monasterii ab episcopo æcclesiasticas fieri omnino negamus. Sed si aliquando res exegit, abbas loci cum aliis abbatibus discussionem rerum inventarum *(in ras.)* faciat et eorum consilio sive iudicio finiatur. Obeunte autem abbate episcopus in describendis previdendisque acquisitis vel datis acquirendisve rebus monasterii nulla se occasione permisceat. Missas quoque publicas ab eo in cenobio fieri omnino prohibemus, ne in servorum dei recessibus et eorum receptaculis ulla popularis prebeatur occasio convenientibus vel mulierum fiat novus introitus, quod omnino non expedit animabus eorum. Nec audeat ibi cathedram collocare, vel quamlibet potestatem imperandi, nec aliquam ordinationem quamvis levissimam faciendi, nisi ab abbate loci fuerit rogatus, quatinus monachi semper maneant in abbatum suorum potestate nullusque monachum sine testimonio vel concessio[p. 18]ne abbatis in ęcclesia aliqua teneat, vel ad aliquem promoveat honorem. Hanc ergo scriptorum nostrorum paginam omni in futuro tempore ab omnibus episcopis firmam statuimus illibatamque servari, ut et suę æcclesiæ iuvante domino suo tantummodo sint iure contenti et monasteria æcclesiasticis conditionibus seu angariis vel quibuslibet obsequiis secularibus nullomodo subiaceant, nullis canonicis viris deserviant, sed remotis vexationibus a cunctis gravaminibus divinum opus cum summa animi devotione perficiant, universi episcopi responderunt libertati monachorum congaudemus, et quę nunc de his statuit beatitudo vestra firmamus in sempiternum. 11 XXX *in ras.*

domnus Craloh huius loci strenuissimus abba cum Alawigo Augensis coenobii venerabili abbate fratribus utrimque ex utroque monasterio pari voto unoque assensu in id ipsum conspirantibus prenotatum renovando decretum hoc saluberrimum subsequens pactum inivit. scilicet ut si quando frater aliquis in utrovis monasterio obierit corpusque defuncti in ecclesiam, ut moris est, translatum fuerit, antea inde non tollatur, donec omnes horæ canonicæ tempore statuto decantentur et omnis celebratio missarum sive vigiliarum, seu etiam psalmodiae pro defuncto persolvatur et tunc demum sepulturae commendetur. Ad eandem autem missam, quę primum pro eo a fratribus in commune recitatur, dicto Ter [p. 21] SANCTUS angelico carmine omnes pavimento prostrati tam diu iaceant, usque dum a presbytero pax domini dicatur, gemitibus et suspiriis et lacrimarum inundatione animam fratris attentius deo commendantes. Annona vero illi quondam viventi statuta ad anniversarium eius diem et inde usque in XXX dies pro eo in elemosynam pauperibus ad plene tribuatur. Et quando obitus alicuius de utrovis monasterio ad alterum fuerit indicatus, ipso die, si ita tempus dictaverit, in agendis vigiliis et missarum psalmodiæque cęlebrationibus unanimiter absque dilatione insistant. Similiter, ut ante notatum est, ad eandem missam hora predicta fratres se solo prosternant humiliter pro anima defuncti deo supplicantes. Ab illo etiam die annona sicut uni e fratribus datur, pro illo quoque ex integro per totos XXX dies pauperibus tribuatur. Decreverunt etiam, ut omnis congregatio fratrum utriusque coenobii in sex turmas partita cottidie privatis diebus unaquęque pars eorum die sibi definito vigilias et missam cum oblationibus generaliter pro omnibus defunctis fidelibus peragat et ad unamquamque synaxim in fine orationis [p. 22] ab omnibus eorum commemoratio fiat. Et ut hęc saluberrima pactio nullo modo a posteris nostris ignorantia aut negligentia ulterius omittatur, placuit nobis, ut in libellulo regulæ nostræ literis commendetur et frequentius in conventu congregationis recenseatur.

(11.) ANNO INCARNATIONIS DOMINI DCCCC.L. comes Saxonicus marchio contra Sclavos vir religiosus Kero nomine a liminibus principum apostolorum reversus monasterium sancti Galli orationis causa visitavit. Libras quoque argenti VIII loco sancto devote ac fideliter optulit et si quo pacto vel apud regem vel apud quemlibet procerum proprietatem sive possessionem quamlibet infra terminos Alemannię consequi potuisset, monasterio se sine dubio collaturum esse promisit et in omnibus cęnobii necessitatibus sive negotiis iuxta scientiam faculta[p. 23]temque suam tam in palatio quam in privato infatigabiliter astiturum. Cuius precibus abbas cum congregatione annuens omnem consuetudinariam fratrum constitutionem sive in orationibus seu vestitu et victualibus tam viventi quam defuncto ex integro condonavit. Et ut hoc nulla possit oblivione deleri negligentiave intermitti, per annos singulos X. K. (13.) Post huius denique orationis gratam communionem anno ab incarnatione dominica DCCC.XL.VI. regnante Hludowico [p. 26] gloriosissimo rege, sub Crimaldo abbate, facta est eadem conventio superiori capitulo prenotata inter istud coenobium et alia tria, unum sancti Columbani Bobii fluminis gloriosi nomen tenens. alterum Desertinense a vicinitate Alpium vocabulum trahens. tertium Schinense claro vocabulo lucens. Antiquissimae partis paginae quatuor columnis scriptae sunt, quarum quaeque triginta novem lineas stilo incisas exhibet. Prima quaeque linea inscriptioni vacabat. Inde a p. 135. lineae viginti septem, inde a p. 153. viginti quinque sunt. Membrana primae partis usque ad p. 134. crassior est, inde a p. 135. tenuior et paulo minoris formae. Ita duae partes codicis facile distinguuntur. Prior pars (pp. 1—134) anno 826 ordinata est, sed plures scriptores invicem eam exaraverunt. Ex indice monasteriorum p. 3 elucet nonnullas partes codicis anni 826 nunc deperditas esse. Dispositus erat quaternionibus, quorum notas in quinque paginis adhuc superesse vidimus. Primi quaternionis (hodie p. 1—12) deperdita sunt fol. primum (cum inscriptione) et octavum (cum ultimis Sangallensibus et cum quat. nota); secundi (hodie p. 15—26) primum folium (cum antiquissimis Fabariensibus) et octavum (cum Salzburgensibus [ind. n. X] et cum quat. nota); tertius cum quaternionis signo p. 44. (hodie 27—44) orbus est*

folio tertio (cum Hasareodi monachis) et sexto (cum conclusione Fuldensium et primis nominibus Magni loci); quartus cum quaternionis signo in p. 60 (hodie p. 46—60) integer remansit; quinti (hodie 61—76) fol. I (cum monasteriis Hornbach, Prumio, Colticas, Flariniaco) et octavum (cum s. Dionysii et S. Trudonis monachis) et sexti (hodie 77—92) folium primum (cum monachis S. Medardi et antiquissimis monasterii Montis viridis) et octavum (nescio cuius argumenti) desunt. Septimi et octavi reliquiae hodie in quinione (93—112) coniuncti sunt, ut ex quat. notis apparet. Non dubito quin pp. 93—96. 109—112 reliquiae septimi pp. 97—108 reliquiae octavi quaternionis sint. Quota horum quaternionum folia deperdita sint cognoscere non potui, sed cum pp. 98. 99 inscriptione coniunctae sint et in p. 97. initium inscriptionis desit, folium primum et octavum octavi quaternionis deesse reor. Fabarienses II, 398 omnino inscriptione videntur caruisse. Nonus (pp. 113—128) integer est. An binio uno folio orbus (pp. 129—134) antea et ipse quaternio fuerit cognosci non potest. Pauciores scriptores quam in Sangallensi et Fabariensi libris, Augiensi operam navaverunt. Primus scriptor (quem propter distinctum eius locum, quasi in subscriptione monasteriorum catalogi, propter similitudinem scripturae et rubri coloris cum caeteris partibus ab eo scriptis Meroltum [II 12, 24] fuisse suspicor) sine dubio haec conscripsit (cognosci potest ex formis litterarum z, g et ligaturae rt, nec non e ductibus crassioribus quibus litterarum scapi scripti sunt): 10, 5—44. 12, 1—19. 24; inscriptiones pagg. 4. 5; 24, 3—41. 25^{a}. 26. 28. inscr. p. 29—31; 31, 23. 43—48. 52^{a}. 53^{a}. 60—64. 68—73, 25. 77—84. 86. 88. 89. 91—95. 98—104, 23. 107—108, 35; 119. 124. 125. 128—131, 3. 133. 135. 137. 139. 141. 143. 145. 147. 149—152. 153, 3—25. 154, 1—21. 158—161. 167—174, 20. 177—181. 187—194. 196—205. 208—212. 214—218. 221. 225. 226. 231—234, 14. 235—237, 10. 244—245, 7. 250. 254—256, 21. 259—264, 13. 269—274, 17. 278—281, 1. 282—284, 22. 287—292, 29. 295—296, 7. 299—302. 304. 305. 307. 309. 314. 316—318, 14. 319. 322, 1—7. 324, 3—24. 328. 383. 13—16. 384. 2—22. 338, 1—8. 339. 343. 347—348, 9. 353. 354., nonulla nomina ex 384—390. 393—396. 460. 470—472. 478. 482. 483. 485. 487—491. 498—501. 503—507. 509—511, 11. 540—543. 12. 545—546, 13. 549—552, fortasse etiam 310—311, 2. 346. 350. Conscripsit catalogos anno 826 (non post hunc a. propter Gerhohi Wizanburgenses II, 126, non ante propter Fabarienses p. 15, [cf. etiam II, 328, 3] nam quin utriusque monasterii status novissimi rationem habuerit dubitari nequit. Sed scriptorem catalogis iam antiquioribus usum esse inde elucet, quod defunctorum nomina saepius contra consuetudinem vivis praemissa apparent. Hos catalogos in monasterio ex praecedentibus annis collectos esse elucet. Annum circiter 814 indicant Clingonenses p. 52, Luxovienses p. 53; 815 Nonantulenses p. 20, Campidonenses p. 42, Ettenheimenses p. 48, Sancti Germani p. 72; annum 820 Altahenses p. 24, Fuldenses p. 36, principes p. 98, comites p. 99, episcopi et abbates p. 106, et etiam p. 114. Sed etiam post annum 826 pauca addidit ut episcopos p. 98. Tempus ante annum 814 videntur ostendere Gemeticenses p. 70 et Sanctigermanenses p. 71. — Alius scriptor (β) Merolti catalogos circa a. 830 supplevit. Ei sequentia attribuenda sunt: 6—8, 26. 15—18. 36, 1—21. 39—41. 67, 1—32. 108, 36—38. 109, 7—38. 110. 111. 112. 113, 10—39. 114, 1—6. 115—118. 121. 126. 127. 162—164, 19. 198, 40—43. 206. 240—243, 20. 252. 253. 257, 1—17. 274^{b}. 275. 293. 294. 339. 357—359. 363—370. 373—376. 9. 422. 451—454, 14. 455. 456. 526, 23—39; fortasse etiam 37. 38. 162—164, 19. 223. 320, 1—12. Eum non ante 830 scripsisse colligitur ex Campidonensium, Wizanburgensium et S. Dionysii catalogis, non post 834 ex 121, 10. Scriptura eius scripturae α simillima est et videtur eiusdem scholae et temporis esse. Distinguitur tantum ex litteris supra nominatis et quia scriptor β nominibus maiusculam litteram initialem dare solet. — Tertius scriptor (γ) eiusdem fere temporis has partes conscripsit manu paullo duriore sed nequaquam deformi: 134. 136. 138. 140. 142. 144. 146. 148^{a}. 149^{b}. 150^{b}. 151^{b}. 152^{b}. 182, 1—27. 183. 1—19. 264, 14—38. 265. 266. 398. 399, 1—8. 417, 11—39. 436—438, 5. 442. 443, 2. 446—449, 5. 464—467,

fortasse etiam 377—379. 424, 6—40. Hunc scriptorem non post scriptorem β, sed nonnulla iam tempore scriptoris α scripsisse, sequitur ex 182, 1—27, quae non post 826 scripta esse possunt. Caeterae partes huius scripturae non certo ad unum scriptorem referri possunt. Summa cura eos in notis criticis adnotari. — Altera pars libri Augiensis (p. 135—164) ca. 950—960 videtur addita esse. Duo praecipui scriptores animadvertendi sunt: δ, qui columnas 571—576. 578—590. 593—600. 602. 603. et ε, qui 611. 612. 615—619, 10. 621—623, 21. 625—626, 3. 630. 635—636, 3. 649—652 ca. 1080 conscripsit. Plurimae caeterae scripturae notam temporis ipsae prae se ferunt. Non dubito quin uterque (δ et ε) Augienses hic sui temporis monachos eos conscripserit, qui promissionem fecerint, id quod formulis supra scriptis probatur (cf. 575. 576). Augiensem igitur librum promissionum separatum a libro confraternitatum non extitisse videmus et Sangallenses quoque libros similiter coniunctos fuisse verisimilius fit. — Praefixi sunt codici Augiensi paginis 9—24 chartaceis inglutinati rotuli quibus obitus fratrum Augiensibus nuntiabatur. Cum hi omnes, plurima chartacea pauca membranacea, e posterioribus saeculis (XIV^mo, et XV^mo,) sint eos hic imprimendos non esse iudicavi, sed cum ratio bene ex eis appareat qua confoederata monasteria de obitu fratrum certiora facta sint, accuratius eos describam. Sunt parvae schedulae vel laciniae in quibus monasterium ipsum, defuncti fratres vel sorores additis dignitate et die obitus, et interdum formula inscripta sunt qua preces pro remedio animarum petebantur (ut A 2: orate pro nobis, *D 3:* orate pro ea, *A 3:* quorum obitus si nondum forent delati ad vestras proprietates pro nunc per presentem notifficamus et animas eorum vestris commendamus memoriis et petimus eosdem annotari vestro kathalogo annuali obligatis nos, *C 1:* quorum animas vestris devotis commendamus orationibus *etc.). Numerus defunctorum qui in tali rotulo commendantur, varius est, mox unus tantum (ut D 1, D 2, D 3, D 4 et saepius), mox plures (decem in E 2, undecim in A 1, sex in A 3). Saepius defuncti complurium annorum in una schedula nuntiantur (ut A 3, E 2) neque tantum monachi et conversi ita commendantur sed etiam moniales adduntur (ut A 1), familiares monasterii (ut B 1), alii quoque laici (ut B 2, E 2) et laicae (ut B 2). Saepius addita est formula* „et alii amici confratres et confamiliares nostri“ *(E 2) vel* „et alii familiares nostri“ *(ut E 5, C 4) ita ut nomina ipsa familiarium omittantur. Rarius additus est annus obitus (ut C 3: 1499). In codice istae laciniae secundum ordinem litterarum initialium monasteriorum dispositae et cuiusque litterae schedulae inter se numeratae sunt. Bened. II, 195. 408). Brevissima excerpta ex codice dedit Herrgott, genealog. diplomat. Habsburg. III, 831. 32. De canonicis Basiliensibus (p. cod. 84) nunc egit Fiala (Anzeiger f. Schweizer. v̌aala. *Nomina col. 39ᵇ. 40ᵇ. 41ᵇ eadem manu videntur scripta esse qua 39ᵃ. 40ᵃ. 41ᵃ.*

cum ista serie noster catalogus concordet nescio. Certum est paginam Iosepho abb. (post 845) conscriptam esse. In 40, 4 sqq. nomina defunctorum invenimus. Frodoinum eundem esse atque Erodoinum 40, 5 apparet, neque magis de 40, 9 dubitari potest. 40, 6 Albo forsitan pro Abbone Godonis successore scriptum est. Omnia docent nostrum catalogum ex antiquiore scheda transscriptum esse; quo concesso id quoque fieri potuit, ut Amblulfus abbas monachorum numero [39, 20] reciperetur. 40, 8 Attebertus idem est, qui Ansegiso abbate versus composuit (SS. VII, 102) et 41, 27 Agabertus et 41, 14 Gislaramnus monachi sunt, qui ab eodem abbate ad Carolum M. missi sunt (cf. Abel l. c.). 40, 3 Kebehart eps. huc non pertinet; idem est ac II 37, 1. In col. 42 alii benefactores conscripti sunt.

56, 1 de mon. v. infra ad III. 56, 3 abb. 778—780 († prid. Non. Mart.); cf. III 53, 11. 56, 4 — 57, 28 sine dubio nomina I 71, 3 — 72, 12 comprehendunt; quae cum in exemplari Sangallensi Silvano abbati 839—851 ascripta sint, dubitari nequit quin nostra series monachorum eodem tempore conscripta, Crespio autem abbas ab eo qui catalogum transcripsit appositus sit. 56, 14 postea abb. 867—878. Nomina coll. 58 et 59 cuius temporis monachos significent videre nequeo, forsitan eorum qui Crespione abbate eiusque successoribus recepti sunt, id est defunctorum Fabariensium, id quod eo verisimilius est quod prima nostri codicis tabula Fabariensium deperiit. Catalogum sub Johanne I. (826—839) conscriptum esse persuasum habeo.

De hoc mon. cf. n. ad I. 67 datam. Forsitan 66, 4 Vigilius [= 67, 4?] et 66, 5 Victor [67, 35?] duo successores Rihperti abbatis [I 67, 2] erant, cum etiam 66, 7. 8. in Sangallensi catalogo occurrant [I 67, 24. 68, 5]. Victor tertius decimus (—712) aut vicesimus (820—833) et Vigilius quartus decimus (710—735) eps. Curiensis non quadrant. Utrum 64, 3 genetiuus an nominatiuus casus sit certum non est. „ABBAS“ in codice sine compendio scriptum est, sed hac re non prohibemur quominus genetiuum esse credamus, cum illo tempore (medio saec. VIII[vo]) talia saepe occurrant et cum caetera nomina et ipsa genetivo casu scripta sint. Schmidfeld domni abbates legere voluit et Puricionem alterum Curiensem epm. fuisse coniecit, inepte. Secunda et tertia nomina eiusdem columnae et nomina caeterarum huius paginae columnarum (exceptis 66, 4—8) Tobrenses non significant sed donatores monasterii: 64. 38—40. 65, 1—21 et secunda et tertia nomina col. 64 iam ab eo qui codicem transcripsit (Meroldo?) intercalata sunt.

Mon. Leonense Brixianum 758 a Desiderio rege in honorem SS. Benedicti, Vitalis et Martialis construi coeptum est (cf. Muratori. Antiquitates Italicae IV, 944 B). Abbates hic Magus (quem circa medium saec. octavum abbatiae regimen habuisse verisimile est) et Hermoaldus [68, 4. 71, 1] nominantur. Hermoaldus fortasse idem est ac notarius Ludovici Pii et poeta Nigelli cognomine † ca. 840 (cf. Simson I, 217 n. 8. II, 121 sq., Wattenbach I⁴, 168, Dümmler I, 890 cum multis aliis notarium Anianensem Abb. Ermenaldum fuisse putat). Aliam seriem monachorum eiusdem coenobii v. II, 446 sqq. Mabillonius II, 195 duo diversa fuisse monasteria voluit, et unum catalogum II, 446 Brixiensium fuisse putavit, cum S. Faustini mon. sequatur. Hic quoque defuncti praecedunt et scripta est tabula Hermoaldo abb.

De episcopis huius paginae actum est ad I, 355. Nunc de hac serie Basiliensium egit Fiala (Anzeiger für Schweizerische Geschichte. 1883. I, 104—108), qui mecum in plurimis consentit, nam ego quoque — id quod non plane ac diserte ad I, 355 dixi — nomina II 324, 3—23 Odalrico episcopo 823—835, accuratius anno 826 (cf. p. 148) conscripta esse judico. Fiala Adalwinum et Hartwigum [327, 1. 2] inter Peradologum et Iringum vult episcopos fuisse; sed hoc mihi non persuasit, quamquam Adalwinum nunc ego quoque Basiliensem episcopum fuisse puto.

Monasterii quod in hon. S. Stephani et Viti in Saxonia (cf. Simson. I, 57 sq. II, 266) (815) 822 ab Adalhardo conditum est, primus abb. fuit idem Adalhardus († 826), cui Warinus, Adalgarius, Thancmarus, Aro, Boro I. successerunt. 451, 1 Wala abb. Corbeiae veteris, frater Adelhardi (de utroque v. ad I, 26, 9. 10.) fuit. Ergo hic nomina monachorum Corbeiae veteris habemus, cum ea nomina, quae e Monn. SS. XIII 274 novae Corbeiae exstitisse sciamus, Adalhardi, Warini, Adalgarii, Thancmari temporibus, hic non occurrant. Corbeia vetus ca 650 in pago Ambianensi a Theotfredo abb. constructum est. Sine dubio primus catalogus ante annum 814 scriptum est, quo primus abbas Adalhardus (fil. Bernardi, frater Walae et Bernharii), eiusque frater Bernharius [451, 2], qui se in mon. Corbeiae receperat, a Ludorico Pio in exilium missi sunt. Tertio fratri Walae [454, 12] ut Corbeiae remaneret permissum est (cf. Simson I, 21). Per tempus exilii Adalhardi (814—821) monachi Adalhardum aequivocum [454, 15] monasterio praeesse voluerunt. Post Adalhardi mortem (826) eius frater Wala abbas factus est [451, 1] († 836; Dümmler. I, 118). 452, 37 [cf. 454, 14] cum Ansgario ad Danos, postea in Sueciam 830 missus est (Dümmler. I, 262). 452, 20 postea archieps. Hammab. (834—865) [cf. 454, 13]. 452, 5 postea (815—852) eps. Paderbrunn. 454, 10 Herioldum Danorum regem doctrina Christiana instruxit (Dümmler. l. c.). 450, 1 Burchardus Passaviensis (903—915) an Herbipol. (931—941). Heinricus com. franc.? (Dümmler. I, 583).

Domino venerabili. et in christo patri. ill. abbati simul cum felici vestra congregatione. quam dominus de diversis provinciis ad peregrinandum propter nomen suum. sub iugo militiae atque servitutis. alaque protectionis secundum euangelium Christi regulariter vobiscum coadunavit. Audivimus quod dominus Jesus Christus per euangelium suum annuntiat dicens: Nisi quis renuntiaverit omnibus quae possidet. non potest meus esse discipulus. Et alibi: Qui reliquerit patrem aut matrem aut fratres aut sorores. domus aut agros, et cætera propter nomen meum. centuplum accipiet. et vitam aeternam possidebit. Petimus ergo beatitudinem caritatis vestrae. ut nos in ordinem congregationis vestrae dignemini recipere. ut ibidem diebus vitae nostrae sub regula beati Benedicti vivere. et conversare debeamus. Abrenuntiamus igitur omnibus voluntatibus nostris propriis. et omnibus rebus quas possidemus. sicut euangelica et regularis docet industria. nihil de rebus terrenis. ab hac die possessuros nos spopondimus. nisi quantum patre monasterii donante aut permittente alimenta vel tegimenta corporis acceperimus. Oboedientiam vobis in quantum vires nostrae suppetunt. et dominus dederit nobis adiutorium. conservare promittimus. Stabilitatem conversationis nostræ in congregatione vestra. teste domino. devoto animo cum observatione regulae. usque in finem profitemur observare. Nisi quis tantum quod ignoramus. futura forsitan oboedientiae causa utilitatis animae accedat aut etiam illud si contra voluntates nostras quod absit separemur a barbaris. et ipsum si fuerit in quantum possumus. semper ad ipsam congregationem revertere faciamus. et sub sancto ordine perseveremus. testate oboedientiae vestrae. nullam habeamus licentiam nos abstrahere. aut contradicere. Quodsi instigante antiquo hoste. aut voluntate nostra propria. hoc facere temptaverimus in nullis modis hoc valeamus vindicare. Sed ubicunque nos missus vester. aut aliquis ex congregatione vestra invenerit. etiam nos nolentes in ipsam congregationem vestram per vosmetipsos deo auxiliante faciatis revocare. et secundum regulam ibidem diiudicare. ut diebus vitae nostrae sub sancta regula. et regimine vestro. perseveremus. qualiter in die iuditii. ante tribunal aeterni iudicis. ipso adiuvante salvos nos representare possitis. CONFRATERNITATES FABARIENSES.

Codex confraternitatum Fabariensium (nunc in chartario Sangallensi sine numero) minoris pretii est Sangallensi et Augiensi quod copiam nominum attinet, sed integrior servatus est. Codex membranaceus est forma maxima (0,326 et 0,217 m.). Continet 1. unum quinionem (p. 1—18) cuius ultimum folium resectum est; 2. folium singulare (p. 19. 20); 3. duos quaterniones (p. 21—52); 4. ternionem (p. 53—64); 5. quatuor quaterniones, quorum secundi folium alterum (ante p. 83) resectum est (p. 65—126); 6. duos quiniones, quorum prioris primum folium (ante p. 127) resectum est (p. 127—164); 7. ternionem cuius folium quartum omnino deest et sexti pars inferior resecta est (p. 165—174); 8. binionem (pp. 175—178), cuius alterum folium et quartum desunt. In fine codicis nonnullorum foliorum resectorum vestigia exstant. Conglutinatus est codex et tegumento e ligno et corio facto munitus, quod fibulis duabus clauditur. Inscriptionem portat hanc manu recentiore confectam: in isto tomo continentur viuorum nec non defunctorum benefactorum nomina a quo liber viventium dictus *(cf. Archiv IX, 956 sqq.). Apographon confraternitatum manu Aegidii Tschudy scriptum in chartario Sangallensi exstat inscriptum Miscellanea historica (sign. VII. 4. fol.), inde a p. 63 usque ad 111. Codex quatuor euangelia continet, quorum singulis bene picta euangelistarum insignia (bos, angelus, leo et aquila) praemissa sunt. Inter singula euangelia nec non ante et post ea confraternitates additae sunt. Nomina ad similitudinem Sangallensium bene pictis columnis, quae arcubus coniunguntur, inclusa sunt. Nominibus rotuli, traditiones, librorum et sacralium catalogi et alia quae ad monasterii possessiones spectant intermixta sunt. Hoc est argumentum codicis: 1. Pagg. 1—3 Reliquiarum et librorum thesaurum Fabariensem continent (cf. App. A. et B, 8; praeterea Th. v. Mohr, die Regesten der Archive der schweizerischen Eidgenossenschaft. I. Chur. 1851. Abth. ADDENDA ET CORRIGENDA.

Nomina I 181_{30} usque ad 182_{1} eadem sunt ac II 81_{8} usque ad 81_{38}, sed alio ordine; similiter I 182_{2-38} = II 88_{34}—89_{27}; I 183_{1-27} = II 89_{29-39}. 91_{1-24}; I 184_{1-28} = II 91_{8}—92_{19}; I $185_{10.\ 11}$ = II 93_{30-32}; I $186_{14.\ 15.\ 24-32}$ = II 91_{26-36}. $93_{34.\ 35}$; I 187_{13} = II 93_{36}; I 191_{1-37} = II 82_{1-37}; I 192_{1-6} = II 82_{36-40}; I 192_{8-16} = II 83_{24-38}; I 192_{17-26} = II 84_{2-18}; I 192_{27-29} = II 82_{38-40}; I 192_{33-36} = II 83_{4-10}; I 193 = II 83_{18}—84_{36}; I 194_{1-24} = II 86_{4} sqq.; I 194_{25-34} = II 84_{21-35}; I 195—197_{30} = II 86. 88—89_{4}; I 197_{31}—201_{36} = II 77—80 et pauca nomina col. 81; unde sequitur nomina I 181—186, 191—201, atque totas paginas XLIV—XLVII cod. Sangallensis Nonantulensium monachorum esse, et similiter paginas XXII et XXIII codicis Augiensis ejusdem monasterii Nonantulensis monachos exhibere; ea igitur quae in paginis 67. 182, 183 adnotavi irrita esse nunc apparet. Nomina II 95_{32-34} abbatum Nonantulensium esse verisimile est. Quae omnia si perpendas paginas cod. Sangallensis XLIV—XLVII ex antiquiore libro ante 826 (cf. pp. 4 et 148) transscriptas esse verisimile est. Mirum videtur, cum post I 190 unum certe folium duplum deperditum esse oporteat, quod nomina quae ex eo desumpta sunt I 280_{9}—282_{29} (quorum nonnulla in II 92—95 repperiuntur) ad hoc folium supplendum non sufficiunt, Nonantulensium tamen nomina etiam pagg. XLVI et XLVII continentur. Non dubito quin in paginis deperditis quaternionis Sangallensis ea nomina scripta fuerint, quae ex coll. 77—83. 92—95 cod. Aug. in Sangallensi exemplari desiderentur. Post pag. XXII cod. Aug. folium nullum excidit, cum catalogi pagg. XVIII et XIX cohaereant.

Quos monachorum catalogos si accuratius perlustramus nunc quidem II 79_{29} falso scriptum esse in codice pro (Scōlus i. e.) Sanctolus [cf. I 199_{5}], I 200_{37} eundem esse ac II 80_{15} Lentheum, et in I 201_{36} Theudelabius [cf. II 77_{25}] et I 184_{28} Orsatius [cf. II 92_{19}] scriptum fuisse facile apparet. In fine col. I 183 nomina Ianuarii et Agiperti, in fine col. I 182 nomina Anilis et Felicis resecta sunt.

I 253_{2} sqq. monachi sunt monasterioli Iohanniswilare, quorum abbas erat Emizo I 253_{2}; cf. chartam donationis anno 908 conscriptam apud Goldastium Alam. rer. script. II p. 50 no. LXXVI, qua 253_{4} Peretro decanus, 253_{6} Hiltibold portarius, 253_{7} Abo custos, 253_{9} Staracholf camerarius, 253_{10} Hilterihc hospitarius, 253_{12} Perehtram cellerarius, 253_{20} Iunchram sacratarius monasterii nominantur (cf. Wartmanni num. 727; Meyer v. Knonau, ein thurgauisches Schulzengeschlecht p. 17). Nomina III 20_{1} sqq. ejusdem monasterii sunt, nam III 20_{1} = I 253_{4}; III 20_{3} Abo = I 253_{7}; Winidhere = I 253_{8}; III 20_{5} Engilpret = I 253_{16}; III 20_{5} Emezo = I 253_{2}; sed cum Emezo non abbas appellatus sit nomenque ejus non in primo loco positum sit, hanc seriem Fabariensis libri ante 905 consepriptam esse apparet. Cum praeterea nominą III 20_{19} = I 253_{34}; III 20_{21} Kerpret = I 254_{24}; III 20_{23} Ysinpret = I 254_{4} sint, nomina I 254_{2} sqq. monasterii Stamheim esse licet suspicari; an I 254_{2} Yrinc idem est ac III 20_{13} Erich, qui ca. 900 abbas Stamhemiensis fuit? Otharii quoque nomine I 254_{5} in has regiones ducimur cum familia Otharii ejusque fratris Notkarii ibi floruerit.

Cum nomina Basiliensium I 355_{3-32} in 324—326 reperiantur, prima nomina pag. X. cod. suppl. Sang. ex antiquiore exemplari videntur transscripta esse.

Haud pauca eorum nominum quae I 319 sqq. conscripta leguntur, in familia ducum Saxoniae reperiuntur. Oudae († 913) Liutolfi ducis († 864) conjugis nomen saepius exstat [I 319_{10} $320_{2.\ 33}$ 321_{12} 322_{7} 323_{4} 325_{16}]; similiter Liutgardae [319_{16} 321_{4} 322_{27}] et Endae [I 320_{33}] filiarum ejus. Quot filios filiasque Ouda cum Liutolfo

habuerit Agius et ipse ejus filius exposuit (SS. IV). Si hic quaternio ca. 880 vel 890 additus est [cf. p. 4]. 319$_{32}$ Hathamod. 321$_{12}$ Gerbirg I. [cf. II 422$_{39}$]. 323$_{26}$ Christina abbatissae Gandershemenses (852—918) et filiae Oudae esse possunt. Si Rotswith [I 323$_{1}$] eadem est ac quae Christinae successit abbatissa, et si Wendilgart [I 326$_{3}$] huic proxima abbatissa est, huius catalogi tempore eas adhuc monachas fuisse oportet. I 325$_{8}$ Richart fortasse Rotsuithae poetriae dilecta magistra est (cf. Hrotsuithae opera ed. Barack. p. 3, et Koepke, Hrotsuit von Gandersheim. Otton. Studien II. Berol. 1869, p. 33 sqq.). Quae Wendilgardae successit abbatissa filia Henrici ducis fratris Ottonis Magni. Gerbirg II. (957—1001) II 668$_{2}$ nominata est. Nomina vero I 319 sqq. Gandershemensium esse vetamur cogitare, cum 319$_{1}$ abbatissa Herfordensis sit et 322$_{1}$, Gandershemensis coenobii abbatissa certo non fuerit. An hic nomina Gandershemensium et Herfordensium monacharum promiscue ex rotulis inscripta sunt?

II 6$_{6}$ Caroli Magni filia spuria, quae obiit anno 852 cf. Einhardi Vitam Kar. Magni c. 18. Pertz Archiv XII. 269. Mabillon Annal. ord. S. Bened. II 625. 745.

Nomina II 65$_{22-25}$ in II 454$_{35-37}$ repetita sunt.

II 134$_{33}$ Brun cognomine Candidus vitam Baugulfi conscripsit et Reccheoni (II 134$_{52}$) cognomine Modesto vitam Eigili dedicavit; cf. E. Dümmleri poetar. latin. aevi Carolini tom. II. p. 94.
